Commercial Worldwide Warranty

Commercial
Generator Sets and Systems

Limited Warranty

Base Coverage

Coverage Period

This is a limited warranty which applies to all Onan® and Cummins® brand Commercial generator sets and associated switches, switchgear, and accessories (hereinafter referred to as "Products"). Products will be free from defects in material and workmanship for a period of one year from the date of initial start-up of the Product. In the case of units used for rental or demonstration purposes, the one year coverage period begins on the date the unit is first used for such rental or demonstration purposes. This warranty is extended to all subsequent owners of the unit during the coverage period.

Repair or replacement parts are warranted for ninety (90) days from the date of purchase, excluding labor and travel expenses.

Onan's Responsibilities

Onan's liability and owner's sole remedy are limited to the repair or replacement, at Onan's option, of the Product or parts that do not conform to this warranty.

In accordance with Onan's Warranty Administration policies, Onan will pay for the parts and labor required to repair the unit and, when necessary, reasonable labor expenses associated with the removal and reinstallation of the Product if such work is done by an authorized Cummins/Onan Distributor or designated service representative.

In accordance with Onan's Warranty Administration policies, Onan will pay limited travel expenses* when necessary to make on-site repairs. See your Distributor for details.

The cost of maintenance items such as oil, filter elements, belts, and hoses will be paid for by Onan when such items are not reusable because of the warrantable failure.

*EXCLUDES mobile applications.

*Travel for TGHA series including transfer switch is limited to 2-1/2 hours travel time and 100 miles round trip.

Owner's Responsibilities

The owner is obligated to install, operate and maintain the Product in accordance with the recommendations published by Onan, including, without limitation, operating within power rating designation set out in Power Rating section, below. The owner is responsible for the costs associated with such maintenance and any adjustments which may be required.

Prior to expiration of the applicable warranty and within 30 days after discovery of the warrantable failure, the owner must notify an authorized Cummins/Onan Distributor or designated repair facility of any warrantable failure and have the repair or replacement made by such facility.

Installation inspection and initial start-up of Commercial genset or power systems must be conducted by an authorized Cummins/Onan distributor or designated representative.

The owner is responsible for payment of any of the following expenses that might be incurred as a result of a failure under the terms of this warranty:

1. Rental equipment used to replace the equipment being repaired, other downtime expenses, and all business costs and losses.
2. Telephone, communication, living and travel expenses incurred by the owner.
3. The premium costs for overtime labor requested by the owner.
4. The cost of air freight or other extraordinary expenses for shipment of parts over and above premium surface transportation.
5. Any other consequential or incidental amounts.

Power Ratings

Onan generator sets must be applied within the following rating designations:

Standby Power Rating

The standby power rating is applicable for supplying emergency power for the duration of normal power interruption.

No sustained overload capability is available for this rating. This rating is applicable to installations served by a reliable normal utility source. This rating is only applicable to variable loads with an average load factor of 80% of the standby rating for a maximum of 200 hours of operation per year. In installations served by unreliable utility sources (where outages last longer or occur more frequently), where operation is likely to exceed 200 hours per year, the prime power rating should be applied. The standby rating is only applicable for emergency and standby applications where the generator set serves as the back-up to the normal utility source. No sustained utility parallel operation is permitted with this rating. For applications requiring sustained utility parallel operation, the prime power or base load rating must be utilized.

Prime Power Rating

The prime power rating is applicable for supplying electric power in lieu of commercially purchased power as set out below.

The number of allowable operating hours per year is unlimited for variable load applications but is limited for constant load applications as described below:

Unlimited Running Time Power

Prime power is available for an unlimited number of annual operating hours in variable load applications. Applications requiring any utility parallel operation at constant load are subject to running time limitations. In variable load applications, the average load factor should not exceed 70% of the prime power rating. A 10% overload capability is available for a period of one hour within a twelve hour period of operation, but not to exceed 25 hours per year. The operating time at or above the Prime Power Rating must not exceed 500 hours per year.

Limited Running Time Prime Power

Prime power is available for a limited number of annual operating hours in constant load applications such as interruptible, load curtailment, peak shaving and other applications that normally involve utility parallel operation. Generator sets may operate in parallel with the utility source up to 750 hours per year at power levels not to exceed the Prime Power Rating. Any application requiring more than 750 hours of operation per year at the Prime Power Rating should use the Base Load Power Rating.

Base Load Power Rating

The base load power rating is applicable for supplying power continuously to a load up to 100% of the base rating for unlimited hours.

No sustained overload capability is available at this rating. This rating is applicable for utility base load operation. In these applications, generator sets are operated in parallel with a utility source and run under constant loads for extended periods of time.

Note: In determining average load factor, loads of less than 30% are considered as 30% and time at standstill is not counted.

Limitations

Onan is not responsible for the repair or replacement of units required because of normal wear, accident, misuse, abuse, improper installation, lack of maintenance, unauthorized modifications, improper storage, negligence, improper or contaminated fuel, or use of parts that do not meet Onan specifications.

NORMAL WEAR:

This warranty will not cover repair where normal use has exhausted the life of a part or product. All mechanical devices need periodic parts replacement and service to perform well.

It should be remembered that the service life of any product is dependent on the care it receives and the conditions under which it has to operate. Coolant heaters will be covered for a period of one year from date of start-up. This warranty shall not apply to starting batteries.

THERE IS NO OTHER EXPRESS WARRANTY, AND NO PERSON IS AUTHORIZED TO GIVE ANY OTHER WARRANTIES OR TO ASSUME ANY OTHER LIABILITIES ON ONAN'S BEHALF UNLESS MADE OR ASSUMED IN WRITING BY AN OFFICER OF ONAN.

IMPLIED WARRANTIES, INCLUDING MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE ARE LIMITED TO THE PERIODS OF COVERAGE SET FORTH ABOVE. TO THE EXTENT PERMITTED BY LAW, ANY AND ALL IMPLIED WARRANTIES ARE EXCLUDED. IN NO EVENT IS ONAN LIABLE FOR INCIDENTAL OR CONSEQUENTIAL DAMAGES.

This warranty gives the owner specific legal rights. The owner may also have other rights which vary depending on local laws. In some areas, local laws do not allow limitations on how long an implied warranty lasts or do not allow the exclusion of incidental or consequential damages, so the above limitations may not apply to you.

Extended Coverage*

Features

Several levels of Extended Coverage are available on Commercial Products. **Comprehensive, Basic, Major Components, Prime Power and Utility Load Management.

Extended Coverage programs are available only in the United States and Canada. Onan provides total system component coverage. There are NO deductibles applied to these programs.

*See AB2003 for details.

**EXCLUDES TGHAA series including transfer switch.

Coverage Period

Emergency Standby Applications: Both Comprehensive and Basic Extended Coverage are available for gensets/systems used exclusively for emergency standby applications, for 5 years or 1500 hours, whichever occurs first, from date of initial start-up. Comprehensive coverage is also available for 2 years or 1500 hours, whichever occurs first from initial system start-up. Major Component Extended Coverage is also available for diesel gensets/systems rated at 200 kW/60 Hz and above, for 10 years or 3000 hours, whichever occurs first, from date of initial start-up. See your Distributor for details.

Prime Power Applications: Extended Coverage is available for diesel gensets used in prime power applications, for 2 years or 6000 hours, whichever occurs first, from date of initial start-up. See your Distributor for details.

Utility Load Management Applications: Both Comprehensive and Basic Extended Coverage are available for diesel gensets/systems rated at 200 kW/60 Hz and above used exclusively in Utility Load Management Applications, for 5 years or 4000 hours, whichever occurs first, from the date of initial system start-up. Comprehensive coverage is also available for 2 years or 1500 hours, whichever occurs first from initial system start-up. See your Distributor for details.

Onan's Responsibilities

Comprehensive Extended Coverage incorporates the identical features contained in the Base Warranty, subject to the above coverage period limitations.

Basic Extended Coverage provides only replacement parts as specified under the Base Warranty. Labor to remove/replace the failed warrantable part is covered as specified in the Base Warranty for 2 years from date of initial start-up.

Major Components Extended Coverage incorporates the identical features contained in Basic Extended Coverage up to year 5 or 1500 hours. In years 6 through 10, or hours beyond 1500 up to 3000, Major Components Extended Coverage provides only replacement parts for the following major components: Engine - cylinder block, camshaft, crankshaft, connecting rods, and flywheel; Alternator - main rotor, main stator, and drive disk; Transfer Switch - actuator motor and main contacts; and Switchgear - buswork and main circuit breaker.

Prime Power Extended Coverage provides replacement parts and labor to remove/replace the failed warrantable part as specified in the Base Warranty.

Owner's Responsibilities

Under Comprehensive Extended Coverage, owner responsibilities are identical to those noted under the Base Warranty.

Under Basic Extended Coverage, the owner is responsible for all expenses beyond the Base Warranty period except the cost of the failed warrantable part and the labor to remove/replace such failed part through the second year, as specified in the Base Warranty.

Under Major Components Extended Coverage, the owner responsibilities are identical to those listed under Basic Extended Coverage up to year 5 or 1500 hours, whichever occurs first. In years 6 through 10 or hours exceeding 1500, up to 3000, the owner is responsible for all expenses except the cost of the failed warrantable major component as specified under Onan's Responsibilities.

Under Prime Power Extended Coverage, the owner is responsible for all expenses beyond the Base Warranty period except the cost of the failed warrantable part and the labor to remove/replace such failed part as specified in the Base Warranty.

For all Extended Coverage programs, the owner is responsible for providing written documentation showing that the product has been maintained in accordance with Onan's published recommendations.

Limitations

Extended Coverage options for Standby Applications apply only to Cummins/Onan brand gensets and systems used exclusively in emergency standby power applications. 10 year Extended Coverage applies only to Cummins/Onan brand diesel gensets rated 200 kW/60 Hz and above.

Extended Coverage options for Utility Load Management Applications apply only to Cummins/Onan brand diesel gensets and systems rated at 200 kW/60 Hz and above used exclusively in Utility Load Management Applications.

2 year Prime Power Extended Coverage applies only to Cummins/Onan brand diesel gensets and packages, including set mounted controls.

Gensets/systems must be registered within the Base Warranty period. See your Cummins/Onan Distributor for details.

10 year Major Components, 2 year Prime Power and all Utility Load Management Extended Coverage programs are available only in the United States and Canada.

ALL LIMITATIONS OF BASE WARRANTY ALSO APPLY TO EXTENDED COVERAGE.

If you have any questions regarding your warranty rights and responsibilities, you should contact your Cummins/Onan distributor by calling 1-800-888-6626.

Commercial Worldwide Warranty

**Commercial
Generator Set
Transfer Switch
Switchgear**

Limited Warranty

Base Coverage

Coverage Period

Commercial Generator Set and Transfer Switch

This is a limited warranty that applies to all Cummins Power Generation® brand Commercial Generator Sets and associated Accessories (hereinafter referred to as "Product"). Product will be free from defects in material and workmanship for a period of one (1) year from the date of "in service" or 18 months from shipment (24 months for permanently installed equipment) to the first end user, whichever comes first. (Permanently installed is defined as Product installed and intended to remain in place for its lifetime, for example, where a generator set must be installed in a building during the early stages of construction. This does not include applications such as a generator set mounted on a concrete slab and hooked up to a building.)

Commercial Switchgear

This is a limited warranty, which applies to all Cummins Power Generation® brands Switchgear and associated Accessories (hereinafter referred to as "Product"). Product will be free from defects in material and workmanship for a period of one year from the date of "in service" or 18 months from shipment to the first end user, whichever comes first.

All Commercial Product

Repair or replacement parts are warranted for ninety (90) days from the date of purchase, excluding labor and travel expenses except in those cases where the end user has paid these expenses for a previous repair. Non-Cummins Power Generation accessories are not covered under this warranty.

In the case of Product used for rental or demonstration purposes, the base coverage period begins on the date the Product is first used for such rental or demonstration purposes. This warranty is extended to all subsequent owners of the Product during the coverage period. Said coverage shall include parts, labor, travel expenses and labor to remove/reinstall said Product. See your Distributor for details.

Cummins Power Generation Responsibilities

Cummins Power Generation's liability and owner's sole remedy are limited to the repair or replacement, at Cummins Power Generation's option, of the Product or parts that do not conform to this warranty. In accordance with Cummins Power Generation's Warranty Administration policies, Cummins Power Generation will pay for the parts and labor required to repair the Product and, when necessary, reasonable labor expenses associated with the removal and reinstallation of the Product if such work is done by an authorized Cummins Power Generation /Onan Distributor or designated service representative.

In accordance with Cummins Power Generation's Warranty Administration policies, Cummins Power Generation will pay limited travel expenses (excludes mobile applications) for generator sets 20 kW and above, transfer switches and switchgear total round trip is limited to 500 miles (800km) and 11 hours travel time and for generator sets below 20 kW total round trip is limited to 100 miles (160 km) and 2.5 hours travel time when necessary to make on-site repairs. The cost of maintenance items such as oil, filter elements, belts, hoses, starting batteries and light bulbs will be paid for by Cummins Power Generation when such items are not reusable because of the warrantable failure.

Owner's Responsibilities

The owner is obligated to install, operate and maintain the Product in accordance with the recommendations published by Cummins Power Generation, including, without limitation, operating within power rating designation set out in Power Rating section for generator sets, below. The owner is responsible for the costs associated with such maintenance. The owner is responsible for any adjustments which may be required beyond 90 days from the in service date.

Prior to expiration of the applicable warranty and within 30 days after discovery of the warrantable failure, the owner must notify an authorized Cummins Power Generation/Onan Distributor or designated repair facility of any warrantable failure and have the repair or replacement made by such facility. Installation inspection and initial start-up of Commercial Product must be conducted by an authorized Cummins Power Generation/Onan distributor or designated representative.

The owner is responsible for payment of any of the following expenses that might be incurred as a result of a failure under the terms of this warranty:

1. Rental equipment used to replace the Product being repaired, other downtime expenses, and all business costs and losses.
2. Telephone, communication, living and travel expenses incurred by the owner.
3. The premium costs for overtime labor requested by the owner.
4. The cost of airfreight or other extraordinary expenses for shipment of parts over and above premium surface transportation.
5. Any other consequential or incidental amounts.

Under Comprehensive Extended Coverage, owner responsibilities are identical to those noted under the Base Warranty.

Under Basic Extended Coverage, the owner is responsible for all expenses beyond the Base Warranty period except the cost of the failed warrantable part and the labor to remove/replace such failed part through the second year, as specified in the Base Warranty.

Under Major Components Extended Coverage, the owner responsibilities are identical to those listed under Basic Extended Coverage up to year 5 or 1500 hours, whichever occurs first. In years 6 through 10 or hours exceeding 1500, up to 3000, the owner is responsible for all expenses except the cost of the failed warrantable major component as specified under Cummins Power Generation's Responsibilities.

Under Prime Power Extended Coverage, the owner is responsible for all expenses beyond the Base Warranty period except the cost of the failed warrantable part and the labor to remove/replace such failed part as specified in the Base Warranty.

For all Extended Coverage programs, the owner is responsible for providing written documentation showing that the product has been maintained in accordance with Cummins Power Generation's published recommendations.

Power Ratings

Cummins Power Generation generator sets must be applied within the following rating designations:

Standby Power Rating

The standby power rating is applicable for supplying emergency power for the duration of normal power interruption.

No sustained overload capability is available for this rating. This rating is applicable to installations served by a reliable normal utility source. This rating is only applicable to variable loads with an average load factor of 80% of the standby rating for a maximum of 200 hours of operation per year. In installations served by unreliable utility sources (where outages last longer or occur more frequently), where operation is likely to exceed 200 hours per year, the prime power rating should be applied. The standby rating is only applicable for emergency and standby applications where the generator set serves as the back-up to the normal utility source. No sustained utility parallel operation is permitted with this rating. For applications requiring sustained utility parallel operation, the prime power or base load rating must be utilized.

Prime Power Rating

The prime power rating is applicable for supplying electric power in lieu of commercially purchased power as set out below.

The number of allowable operating hours per year is unlimited for variable load applications but is limited for constant load applications as described below:

Unlimited Running Time Power

Prime power is available for an unlimited number of annual operating hours in variable load applications. Applications requiring any utility parallel operation at constant load are subject to running time limitations. In variable load applications, the average load factor should not exceed 70% of the prime power rating. A 10% overload capability is available for a period of one hour within a twelve hour period of operation, but not to exceed 25 hours per year. The operating time at or above the Prime Power Rating must not exceed 500 hours per year.

Limited Running Time Prime Power

Prime power is available for a limited number of annual operating hours in constant load applications such as interruptible, load curtailment, peak shaving and other applications that normally involve utility parallel operation. Generator sets may operate in parallel with the utility source up to 750 hours per year at power levels not to exceed the Prime Power Rating. Any application requiring more than 750 hours of operation per year at the Prime Power Rating should use the Base Load Power Rating.

Base Load Power Rating

The base load power rating is applicable for supplying power continuously to a load up to 100% of the base rating for unlimited hours.

No sustained overload capability is available at this rating. This rating is applicable for utility base load operation. In these applications, generator sets are operated in parallel with a utility source and run under constant loads for extended periods of time.

Note: In determining average load factor, loads of less than 30% are considered as 30% and time at standstill is not counted.

Limitations

Cummins Power Generation is not responsible for the repair or replacement of Product required because of normal wear, accident, misuse, abuse, improper installation (such as installing a generator set designed for stationery use in a mobile application), lack of maintenance, unauthorized modifications, improper storage, negligence, improper or contaminated fuel, or use of parts that do not meet Cummins Power Generation specifications.

Generator set warranty will not cover any failures associate with Battle Short Mode applications.

Extended Coverage options for Standby Applications apply only to Cummins Power Generation brand Generator Sets, Transfer Switches, Switchgear and associated Accessories used exclusively in emergency standby power applications. 10 year Extended Coverage applies only to Cummins Power Generation brand diesel genets rated 200 kW/60 Hz and above.

Extended Coverage options for Utility Load Management Applications apply only to Cummins Power Generation brand diesel Generator Sets, Transfer Switches, Switchgear and associated Accessories rated at 200 kW/60 Hz and above used exclusively in Utility Load Management Applications.

2 year Prime Power Extended Coverage applies only to Cummins Power Generation brand diesel Generator Sets, Transfer Switches, Switchgear and associated Accessories, including set mounted controls.

All Commercial Product must be registered within the Base Warranty period. If this requirement is not followed, a penalty charge will apply. See your Cummins Power Generation Distributor for details.

If you have any questions regarding your warranty rights and responsibilities, you should contact your Cummins Power Generation/Onan distributor by calling 1-800-888-6626.

NORMAL WEAR:

This warranty will not cover repair where normal use has exhausted the life of a part or Product. All mechanical devices need periodic parts replacement and service to perform well. It should be remembered that the service life of any product is dependent on the care it receives and the conditions under which it has to operate.

Coolant heaters will be covered for a period of one year from date of start-up. This warranty shall not apply to starting batteries. Steel enclosures are warranted for one year only and are not covered by any extended warranty option. The use of aluminum generator set enclosures and skirts, whenever offered by CPG is the proper installation practice for generator sets in outdoor applications in coastal regions, defined as locations 60 miles and closer to bodies of saltwater.

THERE IS NO OTHER EXPRESS WARRANTY, AND NO PERSON IS AUTHORIZED TO GIVE ANY OTHER WARRANTIES OR TO ASSUME ANY OTHER LIABILITIES ON CUMMINS POWER

GENERATION'S BEHALF UNLESS MADE OR ASSUMED IN WRITING BY AN OFFICER OF CUMMINS POWER GENERATION.

IMPLIED WARRANTIES, INCLUDING MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE ARE LIMITED TO THE PERIODS OF COVERAGE SET FORTH ABOVE. TO THE EXTENT PERMITTED BY LAW, ANY AND ALL IMPLIED WARRANTIES ARE EXCLUDED. IN NO EVENT IS CUMMINS POWER GENERATION LIABLE FOR INCIDENTAL OR CONSEQUENTIAL DAMAGES. This warranty gives the owner specific legal rights. The owner may also have other rights which vary depending on local laws. In some areas, local laws do not allow limitations on how long an implied warranty lasts or do not allow the exclusion of incidental or consequential damages, so the above limitations may not apply to you.

Extended Coverage

Features

Several levels of Extended Coverage are available on Commercial Products. Basic, Comprehensive, Major Components, Prime Power and Utility Load Management.

Extended Coverage programs are available only in the United States and Canada. Extended coverage must be registered within the base warranty of the product. Cummins Power Generation provides total system coverage for all Commercial Product and associated Accessories. There are NO deductibles applied to these programs.

CPG COMMERCIAL WARRANTY PROGRAM COVERAGE SUMMARY KEY

- * Below 20kw 100 miles (160km) and 2.5 hour maximum
- ** Combination of 10 hours of travel/labor during one trip for meals and lodging to be allowed
- *** Warranty coverage is extended an additional 6 months for all permanently installed generator set or transfer switch. Permanently installed is defined as Product installed and intended to remain in place for its lifetime, for example, where a generator set must be installed in a building during the early stages of construction. This does not include applications such as a generator set mounted on a concrete slab and hooked up to a building. This does not apply to switchgear.

**** Major Components Extended Coverage provides only replacement parts for the following major components: Engines- Cylinder block, camshaft, crankshaft, connecting rods, and flywheel; Alternator-main rotor, main stator and drive disc; Transfer Switch-actuator motor and main contacts; Switchgear-bus work and main circuit breaker.

Limited Warranty

Commercial Generating Set

This limited warranty applies to all Cummins Power Generation® branded commercial generating sets and associated accessories (hereinafter referred to as "Product").

This warranty covers any failures of the Product, under normal use and service, which result from a defect in material or factory workmanship.

Warranty Period:

The warranty start date[†] is the date of initial start up, first rental, demonstration or 18 months after factory ship date, whichever is sooner. See table for details.

Continuous Power (COP) is defined as being the maximum power which the generating set is capable of delivering continuously whilst supplying a constant electrical load when operated for an unlimited number of hours per year. No overload capability is available for this rating.

Prime Power (PRP) is defined as being the maximum power which a generating set is capable of delivering continuously whilst supplying a variable electrical load when operated for an unlimited number of hours per year. The permissible average power output over 24 hours of operation shall not exceed 70% of the PRP. For applications requiring permissible average output higher than stated, a COP rating should be used.

Limited-Time Running Power (LTP) is defined as the maximum power available, under the agreed operating conditions, for which the generating set is capable of delivering for up to 500 hours of operation per year.

Emergency Standby Power (ESP) is defined as the maximum power available during a variable electrical power sequence, under the stated operating conditions, for which a generating set is capable of delivering in the event of a utility power outage or under test conditions for up to 200 hours of operation per year. The permissible average power output over 24 hours of operation shall not exceed 70% of the ESP.

**Base Warranty Coverage Duration
(Whichever occurs first)**

Rating	Months	Max. Hours
COP	12	Unlimited
PRP	12	Unlimited
LTP	12	500 hrs
ESP	24	400 hrs

[†] Warranty start date for designated rental and oil and gas model Products is determined to be date of receipt of Product by the end customer.

Cummins Power Generation® Responsibilities:

In the event of a failure of the Product during the warranty period due to defects in material or workmanship, Cummins Power Generation® will only be responsible for the following costs:

- All parts and labor required to repair the Product.
- Reasonable travel expenses to and from the Product site location.
- Maintenance items that are contaminated or damaged by a warrantable failure.

Owner Responsibilities:

The owner will be responsible for the following:

- Notifying Cummins Power Generation® distributor or dealer within 30 days of the discovery of failure.
- Installing, operating, commissioning and maintaining the Product in accordance with Cummins Power Generation®'s published policies and guidelines.
- Providing evidence for date of commissioning.
- Providing sufficient access to and reasonable ability to remove the Product from the installation in the event of a warrantable failure.

In addition, the owner will be responsible for:

- Incremental costs and expenses associated with Product removal and reinstallation resulting from non-standard installations.
- Costs associated with rental of generating sets used to replace the Product being repaired.

- Costs associated with labor overtime and premium shipping requested by the owner.
- All downtime expenses, fines, all applicable taxes, and other losses resulting from a warrantable failure.

Limitations:

This limited warranty does not cover Product failures resulting from:

- Inappropriate use relative to designated power rating.
- Inappropriate use relative to application guidelines.
- Normal wear and tear.
- Improper and/or unauthorized installation.
- Negligence, accidents or misuse.
- Lack of maintenance or unauthorized repair.
- Noncompliance with any Cummins Power Generation® published guideline or policy.
- Use of improper or contaminated fuels, coolants or lubricants.
- Improper storage before and after commissioning.
- Owner’s delay in making Product available after notification of potential Product problem.
- Use of steel enclosures within 60 miles of the coast of salt water when aluminum or an alternate non-corrosive material enclosure option is available.
- Replacement parts and accessories not authorized by Cummins Power Generation®.
- Use of Battle Short Mode.
- Owner or operator abuse or neglect such as: operation without adequate coolant or lubricants; overfueling; overspeeding; lack of maintenance to lubricating, cooling or air intake systems; late servicing and maintenance; improper storage, starting, warm-up, run-in or shutdown practices, or for progressive damage resulting from a defective shutdown or warning device.
- Damage to parts, fixtures, housings, attachments and accessory items that are not part of the generating set.

This limited warranty does not cover costs resulting from:

- Difficulty in gaining access to the Product.
- Repair of cosmetic damage to enclosures.

Please contact your local Cummins Power Generation® Distributor for clarification concerning these limitations.

CUMMINS POWER GENERATION® RIGHT TO FAILED COMPONENTS:

Failed components claimed under warranty remain the property of Cummins Power Generation®. Cummins Power Generation® has the right to reclaim any failed component that has been replaced under warranty.

Extended Warranty:

Cummins Power Generation® offers several levels of Extended Warranty Coverage. Please contact your local Cummins Power Generation ® Distributor for details.

Notes:

MANUFACTURER'S LIMITED WARRANTY RS12000 RESIDENTIAL STANDBY GENERATOR SET

COVERAGE PERIOD

Provided such goods are operated and maintained in accordance with Onan's written instructions, Onan warrants the RS12000 RESIDENTIAL STANDBY GENERATOR SET and RST60/100/200 residential transfer switches when used in the same application to be free from defects in workmanship and material for a period of two (2) years or 200 hours per year maximum usage, whichever comes first, from the date of purchase. This warranty is extended to all subsequent owners of the generator set during the coverage period.

On certain models, emission related components such as the carburetor, ignition system, spark plugs, intake and exhaust manifolds, mufflers, fuel filters, gaseous fuel regulators, and related belts, hoses and connectors are warranted for a period of two (2) years. The nameplate on the engine will specify either California Air Resources Board or Environmental Protection Agency certification to determine if your generator set is covered. Refer to warranty statement AB2018 or AB2025, which describes the details of the emissions warranty.

Any replacement part that is equivalent with respect to the functional performance of the original part may be used in the performance of any maintenance or repairs. If any non-genuine Onan part causes or substantially contributes to a failure, that failure may not be covered by warranty. Distributors and dealers authorized to perform warranty service will use only genuine Onan parts in that work and such parts will be provided at no charge to the owner.

Repair or replacement parts are warranted for ninety (90) days from date of purchase, excluding labor and travel expenses. Any part repaired or replaced during the warranty period assumes the remainder of that warranty period.

The second year of coverage will be limited to parts only, and does not include labor, travel time and mileage.

ONAN'S RESPONSIBILITIES

Onan's obligation under the terms of this warranty is limited to the repair or replacement, at its option, of the generator set or parts of the generator set that do not conform to this warranty and generator set parts damaged by nonconforming parts.

In accordance with Onan's Warranty Administration policies, Onan will pay for the parts and labor required to repair or replace the generator set and, when necessary, reasonable labor expenses associated with the removal and reinstallation of the generator set if such work is done by an authorized Cummins/Onan distributor or designated service representative.

In accordance with Onan's Warranty Administration policies, Onan will pay limited travel expenses up to 2 1/2 hours travel time and 100 miles round trip when necessary to make on-site repairs.

The cost of maintenance items such as oil, filter elements, belts and hoses will be paid for by Onan when such items are not reusable because of the warrantable failure.

OWNER'S RESPONSIBILITIES

The owner is obligated to install, operate and maintain the generator set in accordance with the recommendations published by Onan, including, without limitation, operating within the power rating designation set out in the Power Section below. The owner is responsible for the costs associated with such maintenance and any adjustments which may be required.

Installation inspection and initial start-up of the RS12000 RESIDENTIAL STANDBY GENERATOR SET must be conducted by an authorized Cummins/Onan distributor or designated representative.

All claims must be brought to the attention of Onan or an authorized distributor or its designated service representative within a reasonable time, preferably within 30 days after discovery that the generator set fails to meet this warranty.

The owner is responsible for payment of the following expenses that might be incurred as a result of a failure under the terms of this warranty:

1. Rental equipment used to replace the equipment being repaired
2. Telephone or other communication expenses
3. Living and travel expenses of the person making the repair
4. The premium costs for overtime labor requested by the owner
5. The cost of air freight or other extraordinary expenses for shipment of parts over and above premium surface transportation
6. Any other consequential or incidental amounts

POWER SECTION: STANDBY POWER RATING

The standby power rating is applicable for supplying emergency power for the duration of normal power interruption.

No sustained overload capability is available for this rating. This rating is applicable to installations served by a reliable normal utility source. This rating is only applicable to variable loads with an average load factor of 80% of the standby rating for a maximum of 200 hours of operation per year. The standby rating is only applicable for emergency and standby applications where the generator set serves as the back-up to the normal utility source. No sustained utility parallel operation is permitted with the rating.

LIMITATIONS

Onan is not responsible for the repair of the generator set that is required because of normal wear, accident, misuse, abuse, improper installation, lack of maintenance, unauthorized modifications, the use of add-on or modified parts, improper storage, negligence, improper or contaminated fuel.

NORMAL WEAR

This warranty will not cover repair where normal use has exhausted the life of a part or generator set. Generator sets, like all mechanical devices, need periodic parts replacement and service to perform well. The service life of any generator set is dependent on the care it receives and the conditions under which it has to operate. Some applications are very dusty or dirty, which can cause excessive wear. Such wear, when caused by dirt, dust or other abrasive material which has entered the generator set because of improper maintenance, is not covered by warranty.

Coolant heaters will be covered for a period of one year from date of start-up. This warranty does not apply to starting batteries, proper fuel supply, and damage due to improper installation, external causes or scheduled maintenance.

THERE IS NO OTHER EXPRESS WARRANTY.

IMPLIED WARRANTIES, INCLUDING MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, ARE LIMITED TO PERIODS OF WARRANTY SET FORTH ABOVE. TO THE EXTENT PERMITTED BY LAW, ANY AND ALL IMPLIED WARRANTIES ARE EXCLUDED. **NOTE:** Some states and provinces do not allow limitations on how long an implied warranty lasts, so the above limitations may not apply to you.

IN NO EVENT IS ONAN LIABLE FOR INCIDENTAL OR CONSEQUENTIAL DAMAGES. **NOTE:** Some states or provinces do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation or exclusion may not apply to you.

This warranty gives you specific legal rights, and you may also have other rights which vary from state to state or province.

No person is authorized to give any other warranties or to assume any other liabilities on Onan's behalf, unless made or assumed in writing by an officer of Onan, and no person is authorized to give any warranties or assume any other liability on behalf of seller unless made or assumed in writing by seller.

EXTENDED COVERAGE

Extended warranty coverage may be purchased within the first year of the warranty start date for a nominal fee. There are no deductibles applied to this program. The extended warranty is available only in the U.S. and Canada. See your Cummins/Onan distributor or your point of purchase dealer for details on five (5) year warranty coverage.

If you have any questions regarding your warranty rights and responsibilities, you should contact your Cummins/Onan distributor by calling 1-800-888-6626.

AB-2023-02 Residential Standby Generator Set: Manufacturer's Limited Warranty

Basic Coverage

Provided such goods are operated and maintained in accordance with CPG's written instructions, Cummins Power Generation (CPG) warrants that Residential Standby Generator Sets shall be free from defects in workmanship and material for a period of two (2) years or two thousand (2000) hours, whichever comes first from the date of purchase. This warranty is extended to all subsequent owners of the generator set during the coverage period.

On certain models, emission related components such as the carburetor, ignition system, spark plugs, intake and exhaust manifolds, mufflers, fuel filters, gaseous fuel regulators, and related belts, hoses and connectors are warranted for a period of two (2) years. The nameplate on the engine will specify either California Air Resources Board or Environmental Protection Agency certification to determine if your generator set is covered. Refer to warranty statement AB-2018-01 or AB-2025, which describes the details of the emissions warranty.

Any replacement part that is equivalent with respect to the functional performance of the original part may be used in the performance of any maintenance or repairs. If any non-genuine CPG part causes or substantially contributes to a failure, that failure may not be covered by warranty. Distributors and dealers authorized to perform warranty service will use only genuine CPG parts in that work and such parts will be provided at no charge to the owner.

Repair or replacement parts are warranted for ninety (90) days from date of purchase, excluding labor and travel expenses. Any part repaired or replaced during the warranty period assumes the remainder of that warranty period.

Standby Power Rating

The standby power rating is applicable for supplying emergency power for the duration of normal power interruption. No sustained overload capability is available for this rating. This rating is applicable to installations served by a reliable normal utility source. This rating is only applicable to variable loads with an average load factor of 80% of the standby rating for a maximum of 2000 hours of operation. The standby rating is only applicable for emergency and standby applications where the generator set serves as the back-up to the normal utility source. No sustained utility parallel operation is permitted with this rating.

Limitations

CPG is not responsible for the repair of the generator set that is required because of normal wear, accident, misuse, abuse, improper installation, lack of maintenance, unauthorized modifications, the use of add-on or modified parts, improper storage, negligence, improper or contaminated fuel.

The GSAA Generator Set is designed for use with the RSS Transfer Switch only. If the GSAA Generator Set is used with any other transfer switch warranty coverage is void.

Normal Wear

This warranty will not cover repair where normal use has exhausted the life of a part or generator set. Generator sets, like all mechanical devices, need periodic parts replacement and service to perform well. The service life of any generator set is dependent on the care it receives and the conditions under which it has to operate. Some applications are very dusty or dirty, which can cause excessive wear. Such wear, when caused by dirt, dust or other abrasive material which has entered the generator set because of improper maintenance, is not covered by warranty. Coolant heaters will be covered for a period of one year from date of start-up. This warranty does not apply to starting batteries, proper fuel supply, and damage due to improper installation, external causes or scheduled maintenance.

Continued

Other Warranties

There is no other express warranty. Implied warranties, including merchantability and fitness for a particular purpose, are limited to periods of warranty set forth above. To the extent permitted by law, any and all implied warranties are excluded. Note, some states and provinces do not allow limitations on how long an implied warranty lasts, so the above limitations may not apply to you.

Miscellaneous Damages

In no event is CPG liable for incidental or consequential damages. Note: Some states or provinces do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation or exclusion may not apply to you.

This warranty gives you specific legal rights, and you may also have other rights that vary from state to state or province.

No person is authorized to give any other warranties or to assume any other liabilities on CPG's behalf, unless made or assumed in writing by an officer of CPG. No person is authorized to give any warranties or assume any other liability on behalf of seller unless made or assumed in writing by seller.

Questions

If you have any questions regarding your warranty rights and responsibilities, you should contact your Cummins/Onan distributor by calling 1-800-888-6626.

Cummins Onan's Responsibilities

CPG's obligation under the terms of this warranty is limited to the repair or replacement, at its option, of the generator set or parts of the generator set that do not conform to this warranty and generator set parts damaged by nonconforming parts.

In accordance with CPG Warranty Administration policies, CPG will pay for the parts and labor required to repair or replace the generator set and, when necessary, reasonable labor expenses associated with the removal and reinstallation of the generator set if such work is done by an authorized Cummins Onan distributor or designated service representative.

In accordance with CPG's Warranty Administration policies, CPG will pay limited travel expenses up to 2.5 hours travel time and 100 miles (160 kilometers) round trip when necessary to make on-site repairs for generators below 20 kW. Travel cost for generators 20 kW and above total round trip is limited to 500 miles (800 kilometers) and 11 hours travel time.

The cost of maintenance items such as oil, filter elements, belts and hoses will be paid for by CPG when such items are not reusable because of the warrantable failure.

These responsibilities are also applicable to extended warranty if purchased.

Owner's Responsibilities

The owner is obligated to install, operate and maintain the generator set in accordance with the recommendations published by CPG, including, without limitation, operating within the power rating designation. The owner is responsible for the costs associated with such maintenance and any adjustments that may be required.

All claims must be brought to the attention of CPG or an authorized distributor or its designated service representative within 30 days after discovery that the generator set fails to meet this warranty.

Continued

The owner is responsible for payment of the following expenses that might be incurred as a result of a failure under the terms of this warranty:

1. Rental equipment used to replace the equipment being repaired
2. Telephone or other communication expenses
3. Living and travel expenses
4. The premium costs for overtime labor requested by the owner
5. The cost of air freight or other extraordinary expenses for shipment of parts over and above premium surface transportation
6. Any other consequential or incidental amounts

Extended Coverage

Extended warranty coverage may be purchased within the first year of the warranty start date for a nominal fee. There are no deductibles applied to this program. The extended warranty is available only in the U.S. and Canada. See your Cummins Onan distributor or your point of purchase dealer for details on five (5) year warranty coverage.

Limited Warranty

Provided such goods are operated and maintained in accordance with Cummins Power Generation (CPG's) written instructions, CPG warrants that Residential Standby Generator Sets and Transfer Switches (Here after referred to as Power System), shall be free from defects in workmanship and material for a period of two (2) years or two thousand (2000) hours, whichever comes first from the date of "in service". This warranty is extended to all subsequent owners of the Power System during the coverage period.

Repair or replacement parts are warranted for ninety (90) days from date of purchase, excluding labor and travel expenses. Any part repaired or replaced during the warranty period assumes the remainder of that warranty period.

Standby Power Rating

The standby power rating is applicable for supplying emergency power for the duration of normal power interruption. No sustained overload capability is available for this rating. This rating is applicable to installations served by a normal utility source. This rating is only applicable to variable loads with an average load factor of 80% of the standby rating. The standby rating is only applicable for emergency and standby applications where the Power System serves as the back-up to the normal utility source. No sustained utility parallel operation is permitted with this rating.

Other Warranties

There is no other express warranty. Implied warranties, including merchantability Repair or replacement parts are warranted for ninety (**and fitness for a particular purpose, are limited to periods of warranty set forth above. To the extent permitted by law, any and all implied warranties are excluded.** Note, some states and provinces do not allow limitations on how long an implied warranty lasts, so the above limitations may not apply to you.

Extended Coverage

Extended warranty coverage may be purchased within the first year of the warranty start date. There are no deductibles applied to this program. The extended warranty is available only in the U.S. and Canada. See your Cummins Onan distributor or your point of purchase dealer for details on five (5) year warranty coverage.

CPG's Responsibilities

The obligation of CPG under the terms of this warranty is limited to the repair or replacement, at its option, of the Power System or parts of the Power System that do not conform to this warranty and Power System parts damaged by nonconforming parts.

CPG will pay for the parts and labor required to repair or replace the Power System and, when necessary, reasonable labor expenses associated with the removal and reinstallation of the Power System if such work is done by an authorized Cummins Onan distributor or designated service representative.

CPG will pay limited travel expenses up to 2.5 hours travel time and 100 miles (160 kilometers) round trip when necessary to make on-site repairs for Power Systems below 20 kW. Travel cost for Power Systems 20 kW and above total round trip is limited to 500 miles (800 kilometers) and 11 hours travel time.

The cost of maintenance items such as oil, filter elements, belts and hoses will be paid for by CPG when such items are not reusable because of the warrantable failure.

These responsibilities are also applicable to extended warranty if purchased.

Normal Wear

This warranty will not cover repair where normal use has exhausted the life of a part or Power System. Power Systems, like all mechanical devices, need periodic parts replacement and service to perform well. The service life of any Power System is dependent on the care it receives and the conditions under which it has to operate. Some applications are very dusty or dirty, which can cause excessive wear. Such wear, when caused by dirt, dust or other abrasive material which has entered the Power System because of improper maintenance, is not covered by warranty. Coolant heaters will be covered for a period of one year from date of start-up. This warranty does not apply to starting batteries, proper fuel supply, and damage due to improper installation, external causes or scheduled maintenance

Owner's Responsibilities

The owner is obligated to install, operate and maintain the Power System in accordance with the recommendations published by CPG, including, without limitation, operating within the power rating designation. The owner is responsible for the costs associated with such maintenance and any adjustments that may be required.

All claims must be brought to the attention of CPG or an authorized distributor or its designated service representative within 30 days after discovery that the Power System fails to meet this warranty.

The owner is responsible for payment of the following expenses that might be incurred as a result of a failure under the terms of this warranty:

- Rental equipment used to replace the equipment being repaired
- Telephone or other communication expenses
- Living and travel expenses
- The premium costs for overtime labor requested by the owner
- The cost of air freight or other extraordinary expenses for shipment of parts over and above premium surface transportation
- Any other consequential or incidental amounts

Miscellaneous Damages

In no event is CPG liable for incidental or consequential damages.

Note: Some states or provinces do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation or exclusion may not apply to you.

This warranty gives you specific legal rights, and you may also have other rights that vary from state to state or province.

No person is authorized to give any other warranties or to assume any other liabilities on CPG's behalf, unless made or assumed in writing by an officer of CPG. No person is authorized to give any warranties or assume any other liability on behalf of seller unless made or assumed in writing by seller.

Questions If you have any questions regarding your warranty rights and responsibilities, you should contact your Cummins/Onan distributor by calling 1-800-888-6626.

Limitations

CPG is not responsible for the repair of the Power System that is required because of normal wear, accident, misuse, abuse, improper installation, lack of maintenance, unauthorized modifications, the use of add-on or modified parts, improper storage, negligence, improper or contaminated fuel.

Any replacement part that is equivalent with respect to the functional performance of the original part may be used in the performance of maintenance or repairs. If any non-genuine CPG part causes or substantially contributes to a failure, that failure may not be covered by warranty. Distributors and dealers authorized to perform warranty service will use only genuine CPG parts.

When the Power System application is at a primary residence with utility power it receives a 2 year or 2,000 hour warranty, whichever comes first from the date "in service". The warranty period will automatically start 6 months from the date of purchase if not "in service". For new home construction this warranty will begin when the home purchaser takes ownership of the home.

- RS12000 gensets require the use of the RSS switch to qualify for the 2 year or 2,000 hour warranty

Revenue generating applications and primary residence applications without alternative or utility power are not covered under this warranty.

All other applications will receive 1 year or 1,000 hour warranty, whichever comes first from the date of purchase.

RS12000 gensets must be used with a RSS switch to qualify for extended warranty.

The two (2) years or two thousand (2000) hours warranty coverage is available only in the U.S. and Canada. Applications outside of the U.S. and Canada receive a 1 year or 1000 hours warranty coverage.

Residential Standby Generator Set and Transfer Switch: Manufacturer's Limited Warranty

Distributor & Dealer Coverage Matrix

Power	Residence	Revenue Generating	RSS Switch	Coverage
Utility	Primary	No/Yes	Yes	2 yr or 2,000 hr
Utility	Primary	No/Yes	No	2 yr or 2,000 hr*
Utility	Primary	No	No	1 yr or 1,000 hr**
Alternative	Primary	No	No/Yes	1 yr or 1,000 hr
Alternative	Secondary	No	No/Yes	1 yr or 1,000 hr
None	Secondary	No	No/Yes	1 yr or 1,000 hr
Utility	None	Yes	No/Yes	1 yr or 1,000 hr
None	Primary	No	No/Yes	No Warranty
None	None	Yes	No/Yes	No Warranty
Utility	None	No	No/Yes	1 yr or 1,000 hr

*Excludes RS12000

**RS12000 Only

Extended warranty is only available when genset and transfer switches qualify for 2yr / 2,000 hr warranty.

Travel expenses are limited to 2.5 hours and 100 miles for gensets less than 20 KW. Over 20 KW 11 hours and 500 mile limitation applies.

Definitions;

- Primary - Principal place or most used of all other residences.
- Secondary - This refers to all residences that are not primary.
- Revenue Generating - Income is generated at application's location.
- Power - Primary power source for application.

The coverage details provided in this matrix pertain to products purchased and used in the U.S. and Canada only.

Limited Warranty

Residential Standby GSBA & GSBB Generator Sets

This limited warranty applies to Cummins Onan® branded Residential Standby Generator Sets previously named and hereinafter referred to as "Product".

This warranty covers any failures of the Product, under normal use and service, which result from a defect in material or factory workmanship.

Warranty Period:

The limited warranty start date[†] is the date of initial start up. Warranty coverage for this product shall be five (5) years or two thousand (2000) hours[†] whichever occurs first. See table for details.

Base Warranty Coverage Detail

Year	Mileage	Labor	Parts
1	yes	yes	yes
2	yes	yes	yes
3	no	no	yes
4	no	no	yes
5	no	no	yes

[†] Product used in off grid applications will receive one year or one thousand hours of coverage whichever occurs first.

Cummins Power Generation® Responsibilities:

In the event of a failure of the Product during the warranty period due to defects in material or workmanship, Cummins Power Generation® will only be responsible for the following costs:

- All parts and labor required to repair the Product.
- Maintenance items that are contaminated or damaged by a warrantable failure.
- Reasonable travel expenses to and from the Product site location according to travel guidelines.

Owner Responsibilities:

The owner will be responsible for the following:

- Notifying Cummins Power Generation® distributor or dealer within 30 days of the discovery of failure
- Installing, operating, commissioning and maintaining the Product in accordance with Cummins Power Generation®'s published policies and guidelines.
- Providing evidence for date of commissioning.
- Providing sufficient access to and reasonable ability to remove the Product from the installation in the event of a warrantable failure.

In addition, the owner will be responsible for:

- Incremental costs and expenses associated with Product removal and reinstallation resulting from non-standard installations.
- Costs associated with rental of generator sets used to replace the Product being repaired.
- Costs associated with labor overtime and premium shipping requested by the owner.
- All downtime expenses, fines, all applicable taxes, and other losses resulting from a warrantable failure.

Limitations:

This limited warranty does not cover Product failures resulting from:

- Inappropriate use relative to designated power rating.
- Inappropriate use relative to application guidelines.
- Normal wear and tear.
- Improper and/or unauthorized installation.
- Owner's or operator's negligence, accidents or misuse.
- Lack of maintenance or unauthorized repair.
- Noncompliance with any Cummins Power Generation® published guideline or policy.

Limitations Continued:

- Use of improper or contaminated fuels, coolants or lubricants.
- Improper storage before and after commissioning.
- Owner's delay in making Product available after notification of potential Product problem.
- Replacement parts and accessories not authorized by Cummins Power Generation®.
- Damage to parts, fixtures, housings, attachments and accessory items that are not part of the generator set.
- Owner or operator abuse or neglect such as: operation without adequate coolant or lubricants; over fueling; over speeding; lack of maintenance to lubricating, cooling or air intake systems; late servicing and maintenance; improper storage, starting, warm-up, run-in or shutdown practices, or for progressive damage resulting from a defective shutdown or warning device.

This limited warranty does not cover costs resulting from:

- Difficulty in gaining access to the Product.
- Repair of cosmetic damage to enclosures.

Please contact your local Cummins Power Generation® Distributor for clarification concerning these limitations.

CUMMINS POWER GENERATION® RIGHT TO FAILED COMPONENTS:

Failed components claimed under warranty remain the property of Cummins Power Generation®. Cummins Power Generation® has the right to reclaim any failed component that has been replaced under warranty.

Comprehensive Extended Warranty:

Cummins Power Generation® offers a five (5) year comprehensive Extended Warranty Coverage that may be purchased within the first year of the warranty start date. There are no deductibles applied to this program. This extended warranty is available only in the U.S. and Canada. Please contact your local Cummins Power Generation ® Distributor for details.

THE WARRANTIES SET FORTH HEREIN ARE THE SOLE WARRANTIES MADE BY CUMMINS POWER GENERATION ® IN REGARD TO THE PRODUCT. CUMMINS POWER GENERATION® MAKES NO OTHER WARRANTIES, EXPRESS OR IMPLIED, OR OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE.

IN NO EVENT IS CUMMINS POWER GENERATION® LIABLE FOR INCIDENTAL OR CONSEQUENTIAL DAMAGES.

This limited warranty shall be enforced to the maximum extent permitted by applicable law. This limited warranty gives the owner specific rights that may vary from state to state or from jurisdiction to jurisdiction.

Limited Warranty

Transfer Switch and Paralleling Systems

This limited warranty applies to all Cummins Power Generation® branded Transfer Switches, Paralleling Systems and associated accessories (hereinafter referred to as "Product").

This warranty covers any failures of the Product, under normal use and service, which result from a defect in material or factory workmanship.

Warranty Period:

The warranty start date is the date of commissioning[†], demonstration or 18 months after factory ship date, whichever is sooner.

[†] Date of commissioning not to exceed date of Generator Set initial start-up.

Transfer Switch Coverage Duration:

The warranty coverage duration for Transfer Switches is defined in the table below for the different product families:

Product Family	Duration
GTEC, LT, LC, RSS, RST, OTEC	<ul style="list-style-type: none"> 1 Year: Parts, Labor & Travel
PLTO, PLTH, PLTS, PLTE	<ul style="list-style-type: none"> 2 Years: Parts, Labor & Travel
Other Power Transfer Devices ^{††}	<ul style="list-style-type: none"> 2 Years: Parts, Labor & Travel
OT, OTPC, BTPC, OHPC, CHPC	<ul style="list-style-type: none"> Years 0-2: Parts, Labor & Travel Years 3-5: Parts Only Years 6-10: Main Contacts Only

^{††} Devices manufactured by Cummins Power Generation that allow power transfer between two power sources.

Paralleling Systems Coverage Duration:

The warranty coverage duration for Paralleling Systems is for a period of 2 Years from the warranty start date.

Cummins Power Generation®

Responsibilities:

In the event of a failure of the Product during the warranty period due to defects in material or workmanship, Cummins Power Generation® will only be responsible for the following costs:

- All parts and labor required to repair the Product^{†††}.
- Reasonable travel expenses to and from the Product site location^{†††}.

^{†††} Years 0-2 only for OT, OTPC, BTPC, OHPC & CHPC family of Transfer Switches.

Owner Responsibilities:

The owner will be responsible for the following:

- Notifying Cummins Power Generation® distributor or dealer within 30 days of the discovery of failure.
- Installing, operating, commissioning and maintaining the Product in accordance with Cummins Power Generation®'s published policies and guidelines.
- Providing evidence for date of commissioning.
- Providing sufficient access to and reasonable ability to remove the Product from the installation in the event of a warrantable failure.

In addition, the owner will be responsible for:

- Costs associated with rental of power generating equipment used to replace the Product being repaired.
- Costs associated with labor overtime and premium shipping requested by the owner.
- All downtime expenses, fines, all applicable taxes, and other losses resulting from a warrantable failure.

Limitations:

This limited warranty does not cover Product failures resulting from:

- Inappropriate use relative to designated power rating.
- Inappropriate use relative to application guidelines.
- Non-conformance to applicable industry standards for installation
- Normal wear and tear.
- Improper and/or unauthorized installation.
- Negligence, accidents or misuse.
- Lack of maintenance or unauthorized repair.
- Noncompliance with any Cummins Power Generation® published guideline or policy.
- Improper storage before and after commissioning.
- Owner's delay in making Product available after notification of potential Product problem.
- Use of steel enclosures within 60 miles of the coast of salt water when aluminum or an alternate non-corrosive material enclosure option is available.
- Replacement parts and accessories not authorized by Cummins Power Generation®.
- Owner or operator abuse or neglect such as: late servicing and maintenance and improper storage.
- Damage to parts, fixtures, housings, attachments and accessory items that are not part of the transfer switch or paralleling system.

This limited warranty does not cover costs resulting from:

- Difficulty in gaining access to the Product.
- Repair of cosmetic damage to enclosures.

Please contact your local Cummins Power Generation® Distributor for clarification concerning these limitations.

MANUFACTURER'S LIMITED WARRANTY

COMMERCIAL MOBILE POWER PRODUCTS

COVERAGE PERIOD

Provided such goods are operated and maintained in accordance with Onan's written instructions, Onan warrants **HGJAD, HGJAE, HGJAF, DKC, DKD, HDCAC, HDCAD, HDKAG, HDKAL, HDKAR, HDKAS, and HDKAT** gensets purchased after June 1994 for a period of two (2) years or two thousand (2,000) hours, whichever occurs first, from the date of purchase by the first retail purchaser. Selected drive system parts for the **HGJAD, HGJAE & HGJAF** are covered for five (5) years. Selected components are: belt, tensioner, pulley assembly and coupling.

Provided such goods are operated and maintained in accordance with Onan's written instructions, Onan warrants **BGD and NHD**, beginning with Spec J gensets installed and used in a commercial mobile application for a period of two (2) years or two thousand (2,000) hours, whichever occurs first, from the date of purchase by the first retail purchaser.

Onan warrants **HGJAA, HGJAB, HGJAC, KV and KY, BGM and NHM** gensets used in commercial applications for a period of one (1) year or one thousand (1,000) hours, whichever occurs first, from the date of sale to the first retail purchaser.

Onan warrants gensets designed for commercial mobile applications used in Prime Power or Standby applications, will be free from defects in material and workmanship for a period of one (1) year or two thousand (2,000) hours from the date of sale to the first retail purchaser.

Onan warrants all gensets used for rental or demonstration purposes for a period of one (1) year or two thousand (2,000) hours from the date the genset is first used for rental or demonstration purposes.

Emission related components such as the carburetor, ignition system, spark plugs, intake and exhaust manifolds, mufflers, catalytic converters, fuel filters, gaseous fuel regulators, and related belts, hoses, and connectors are warranted for a period of two (2) years on 1995 and later gensets or until the first scheduled replacement interval written in the Onan Operator's manual.

Non-genuine Onan parts used in maintenance or repair that cause or substantially contribute to a failure, that failure, may not be covered by this warranty. An Onan authorized Distributor or its designated service representative authorized to perform warranty repairs will use only genuine Onan parts, unless Onan gives express written authorization. Such parts will be provided at no charge to the owner.

Repair or replacement parts are warranted for ninety (90) days from date of purchase, excluding labor and travel expenses. Any part repaired or replaced during the warranty period assumes the remainder of the warranty or ninety (90) days, whichever is greater.

ONAN'S RESPONSIBILITIES

Onan's obligation under the terms of this warranty is limited to the repair or replacement, at its option, of the parts of the genset that do not conform to this warranty and genset parts damaged by nonconforming parts.

Onan will pay for the parts and labor, including diagnostic labor, on emissions related failures needed to repair the genset engine. When necessary, Onan will also pay reasonable labor expenses associated with the removal and reinstallation of the genset into the customer's equipment up to the maximum time of two (2) hours on all sets with the exception of the KY set where a maximum of one (1) hour is allowed if the work is done by an Onan authorized distributor or other service representative designated by Onan.

Maintenance items such as spark plugs, glow plugs, oil filter, fuel filter, air filter, belts and hoses will be covered for the period of time up to the first scheduled replacement or service interval for each item.

OWNER'S RESPONSIBILITIES

The owner is obligated to operate and maintain the genset in accordance with the recommendations published by Onan in the operator's manual for the genset. The owner is responsible for the costs associated with such maintenance and any adjustments that may be required.

All claims must be brought to the attention of Onan or an authorized Distributor or its designated service representative within a reasonable time, preferably within thirty (30) days after discovery that the genset fails to meet this warranty.

The owner is responsible for payment of any of the following expenses that might be incurred as a result of a failure under the terms of this warranty:

1. Rental equipment used to replace the equipment being repaired.
2. Telephone or other communication expenses.
3. Living, travel or communication expenses.
4. The premium costs for overtime labor requested by the owner.
5. The cost of airfreight or other extraordinary expenses for shipment of parts over and above premium surface transportation.
6. Failures due to improper installation, normal wear, corrosion, lack of reasonable and necessary maintenance, accident, misuse, abuse, negligence, unauthorized modifications, the use of add-on or modified parts, improper storage, and improper or contaminated fuel.
7. Starting batteries.
8. Cost of repairs performed by a non-authorized Onan service representative, unless express written pre-authorization is given by Onan or an Onan authorized Distributor.

LIMITATIONS

Onan is not responsible for the repair of the genset that is required because of normal wear, accident, misuse, abuse, improper installation, lack of maintenance, unauthorized modifications, the use of add-on or modified parts, improper storage, negligence, improper or contaminated fuel.

NORMAL WEAR

This warranty will not cover repair where normal use has exhausted the life of a part or genset. Gensets, like all mechanical devices, need periodic parts replacement and service to perform well. It should be remembered that the service life of any genset is dependent on the care it receives and the conditions under which it has to operate. Some applications are very dusty or dirty, which can cause excessive wear. Such wear, when caused by dirt, dust or other abrasive material that has entered the genset because of improper maintenance, is not covered by warranty.

THERE IS NO OTHER EXPRESS WARRANTY.

IMPLIED WARRANTIES, INCLUDING MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, ARE LIMITED TO PERIODS OF WARRANTY SET FORTH ABOVE. TO THE EXTENT PERMITTED BY LAW, ANY AND ALL IMPLIED WARRANTIES ARE EXCLUDED. **NOTE:** Some states and provinces do not allow limitations on how long an implied warranty lasts, so the above limitations may not apply to you.

IN NO EVENT IS ONAN LIABLE FOR INCIDENTAL OR CONSEQUENTIAL DAMAGES. **NOTE:** Some states or provinces do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation or exclusion may not apply to you.

This warranty gives you specific legal rights, and you may also have other rights that may vary from state to state or province.

No person is authorized to give any other warranties or to assume any other liabilities on Onan's behalf, unless made or assumed in writing by an officer of Onan, and no person is authorized to give any warranties or assume any other liability on behalf of seller unless made or assumed in writing by seller.

EXTENDED COVERAGE

Extended warranty coverage may be purchased for the BGD, NHD and diesel models within the first year of the warranty start date for a nominal fee. There are no deductibles applied to this program. The extended warranty is available only in the U.S. and Canada. See your Cummins/Onan Distributor or your point of purchase dealer for details about three (3) year warranty coverage.

Contact your Cummins/Onan distributor for questions regarding your warranty rights and responsibilities at 1-800-888-6626 (ONAN) and select **OPTION # 1** in the U.S. or Canada or refer to the F-118 Worldwide Distributor Sales and Service Directory; or visit our Website at www.onan.com.

Cummins Onan

Performance you rely on.™

AB-2016-02 COMMERCIAL MOBILE POWER PRODUCTS MANUFACTURER'S LIMITED WARRANTY

COVERAGE PERIOD

Provided such goods are operated and maintained in accordance with Cummins Onan's written instructions, Cummins Onan warrants that Cummins Onan commercial mobile gensets purchased after June 1994 and used in commercial mobile application is warranted for a period of two (2) years or two thousand (2,000) hours, whichever occurs first, from the date of purchase by the first retail purchaser. Selected drive system parts for the HGJAD, HGJAE, and HGJAF, are covered for five (5) years. Selected components are: drive train belt, tensioner arm, pulley assembly and coupling.

Provided such goods are operated and maintained in accordance with Cummins Onan's written instructions, Onan warrants and, beginning with Spec J gensets installed and used in a commercial mobile application for a period of two (2) years or two thousand (2,000) hours, whichever occurs first, from the date of purchase by the first retail purchaser.

Cummins Onan warrants gensets used in commercial applications for a period of one (1) year or one thousand (1,000) hours, whichever occurs first, from the date of sale to the first retail purchaser.

Cummins Onan warrants gensets designed for commercial mobile applications used in Prime Power or Standby applications, will be free from defects in material and workmanship for a period of one (1) year or two thousand (2,000) hours from the date of sale to the first retail purchaser.

Cummins Onan warrants all gensets used for rental or demonstration purposes for a period of one (1) year or two thousand (2,000) hours from the date the genset is first used for rental or demonstration purposes.

Emission related components such as the carburetor, ignition system, spark plugs, intake and exhaust manifolds, mufflers, catalytic converters, fuel filters, gaseous fuel regulators, and related belts, hoses, and connectors are warranted for a period of two (2) years on 1995 and later gensets or until the first scheduled replacement interval written in the Cummins Onan Operator's manual.

Non-genuine Cummins Onan parts used in maintenance or repair that cause or substantially contribute to a failure, that failure, may not be covered by this warranty. A Cummins Onan authorized Distributor or its designated service representative authorized to perform warranty repairs will use only genuine Cummins Onan parts, unless Cummins Onan gives express written authorization. Such parts will be provided at no charge to the owner.

Repair or replacement parts are warranted for ninety (90) days from date of purchase. Any part repaired or replaced during the warranty period assumes the remainder of that warranty period.

ONAN'S RESPONSIBILITIES

Cummins Onan's obligation under the terms of this warranty is limited to the repair or replacement, at its option, of the parts of the genset that do not conform to this warranty and genset parts damaged by nonconforming parts.

Cummins Onan will pay for the parts and labor, including diagnostic labor, on emissions related failures needed to repair the genset engine. Cummins Onan will also pay documented standard repair time only for warranty work requiring removal and reinstallation of Cummins Onan Commercial Mobile products provided such warranty labor is performed by a Cummins Onan distributor or its designated service representative.

Maintenance items such as spark plugs, glow plugs, oil filter, fuel filter, air filter, belts and hoses will be covered for the period of time up to the first scheduled replacement or service interval for each item.

OWNER'S RESPONSIBILITIES

The owner is obligated to operate and maintain the genset in accordance with the recommendations published by Cummins Onan in the operator's manual for the genset. The owner is responsible for the costs associated with such maintenance and any adjustments that may be required.

All claims must be brought to the attention of Cummins Onan Distributor or its designated service representative within thirty (30) days after discovery that the genset fails to meet this warranty.

The owner is responsible for payment of any of the following expenses that might be incurred as a result of a failure under the terms of this warranty:

1. Rental equipment used to replace the equipment being repaired.
2. Telephone or other communication expenses.
3. Living, travel or communication expenses.
4. The premium costs for overtime labor requested by the owner.
5. The cost of airfreight or other extraordinary expenses for shipment of parts over and above premium surface transportation.
6. Failures due to improper installation, normal wear, corrosion, lack of reasonable and necessary maintenance, accident, misuse, abuse, negligence, unauthorized modifications, the use of add-on or modified parts, improper storage, and improper or contaminated fuel.
7. Starting batteries.
8. Cost of repairs performed by a non-authorized Cummins Onan service representative, unless express written pre-authorization is given by Onan or a Cummins Onan authorized Distributor.

LIMITATIONS

Cummins Onan is not responsible for the repair of the genset that is required because of normal wear, accident, misuse, abuse, improper installation, lack of maintenance, unauthorized modifications, the use of add-on or modified parts, improper storage, negligence, improper or contaminated fuel.

NORMAL WEAR

This warranty will not cover repair where normal use has exhausted the life of a part or genset. Gensets, like all mechanical devices, need periodic parts replacement and service to perform well. It should be remembered that the service life of any genset is dependent on the care it receives and the conditions under which it has to operate. Some applications are very dusty or dirty, which can cause excessive wear. Such wear, when caused by dirt, dust or other abrasive material that has entered the genset because of improper maintenance, is not covered by warranty.

THERE IS NO OTHER EXPRESS WARRANTY.

IMPLIED WARRANTIES, INCLUDING MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, ARE LIMITED TO PERIODS OF WARRANTY SET FORTH ABOVE. TO THE EXTENT PERMITTED BY LAW, ANY AND ALL IMPLIED WARRANTIES ARE EXCLUDED. NOTE: Some states and provinces do not allow limitations on how long an implied warranty lasts, so the above limitations may not apply to you.

IN NO EVENT IS ONAN LIABLE FOR INCIDENTAL OR CONSEQUENTIAL DAMAGES. NOTE: Some states or provinces do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation or exclusion may not apply to you.

This warranty gives you specific legal rights, and you may also have other rights that may vary from state to state or province.

No person is authorized to give any other warranties or to assume any other liabilities on CPG's behalf, unless made or assumed in writing by an officer of CPG, and no person is authorized to give any warranties or assume any other liability on behalf of seller unless made or assumed in writing by seller.

EXTENDED COVERAGE

Extended warranty coverage may be purchased within the first year of the warranty start date for a nominal fee. There are no deductibles applied to this program. The extended warranty is available only in the U.S. and Canada. See your Cummins Onan Distributor or your point of purchase dealer for details about three (3) year warranty coverage.

Contact your Cummins Onan distributor for questions regarding your warranty rights and responsibilities at **1-800-888-6626** (ONAN) and select OPTION # 1 in the U.S. or Canada or refer to the F-118 Worldwide Distributor Sales and Service Directory; or visit our Website at www.onan.com.

Limited Warranty

Commercial Mobile Generating Sets

This limited warranty applies to all Cummins Onan® branded Commercial Mobile Diesel, Gas, and Propane generating sets and associated accessories (hereinafter referred to as "Product").

This warranty covers any failures of the Product, under normal use and service, which result from a defect in material or factory workmanship.

Warranty Period:

The warranty start date is the date of sale of Product to the first retail purchaser by Cummins Power Generation®. The coverage duration is 2 years from warranty start date or 2,000 hours, whichever occurs first.

Cummins Power Generation® Responsibilities:

In the event of a failure of the Product during the warranty period due to defects in material or workmanship, Cummins Power Generation® will only be responsible for the following costs:

- All parts and labor required to repair the Product.
- Maintenance items that are contaminated or damaged by a warrantable failure.

Owner Responsibilities:

The owner will be responsible for the following:

- Providing evidence of the date of sale to the first retail purchaser.
- Notifying Cummins Power Generation® distributor or dealer within 30 days of the discovery of failure.
- Installing, operating, commissioning and maintaining the Product in accordance with Cummins Power Generation®'s published policies and guidelines.
- Providing sufficient access to and reasonable ability to remove the Product from the installation in the event of a warrantable failure.

In addition, the owner will be responsible for:

- Incremental costs and expenses associated with Product removal and reinstallation resulting from non-standard installations.
- Costs associated with rental of generator sets used to replace the Product being repaired.
- Costs associated with labor overtime and premium shipping requested by the owner.
- All downtime expenses, fines, all applicable taxes, and other losses resulting from a warrantable failure.
- Living and travel expenses.
- Telephone or other communication expenses.

Limitations:

This limited warranty does not cover Product failures resulting from:

- Inappropriate use relative to designated power rating.
- Inappropriate use relative to application guidelines.
- Normal wear, corrosion and varnished fuel system parts
- Owner's or operator's negligence, accidents or misuse.
- Lack of maintenance or improper repair.

- Noncompliance with any Cummins Power Generation® published guideline or policy.
- Use of improper or contaminated fuels, coolants or lubricants.

Limitations Continued:

- Owner’s delay in making Product available after notification of potential Product problem.
- Replacement parts and accessories not authorized by Cummins Power Generation®.
- Operation without adequate coolant or lubricants.
- Lack of maintenance to lubricating, cooling or air intake systems.
- Late servicing and maintenance.
- Improper storage, starting, warm-up, run-in or shutdown practices.
- Damage to parts, fixtures, housings, attachments and accessory items that are not part of the generator set.

This limited warranty does not cover costs resulting from:

- Difficulty in gaining access to the Product.
- Damage to customer property.
- Repair of cosmetic damage to enclosures.

www.cumminsonan.com

CUMMINS POWER GENERATION® RIGHT TO FAILED COMPONENTS:

Failed components claimed under warranty remain the property of Cummins Power Generation®. Cummins Power Generation® has the right to reclaim any failed component that has been replaced under warranty.

THIS IS THE SOLE WARRANTY MADE BY CUMMINS POWER GENERATION ® IN REGARD TO THE PRODUCT. CUMMINS POWER GENERATION® MAKES NO OTHER WARRANTIES, EXPRESS OR IMPLIED, OR OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE.

IN NO EVENT IS CUMMINS POWER GENERATION® LIABLE FOR INCIDENTAL OR CONSEQUENTIAL DAMAGES.

This limited warranty shall be enforced to the maximum extent permitted by applicable law. This limited warranty gives the owner specific rights that may vary from state to state or from jurisdiction to jurisdiction.

MANUFACTURER'S LIMITED WARRANTY ONAN CMHG HYDRAULIC GENERATOR & PROTEC AC™ SERIES GENERATOR

COVERAGE PERIOD

Provided such goods are operated and maintained in accordance with Onan's written instructions, Onan warrants that the CMHG SERIES Hydraulic Generators and PROTEC AC SERIES generators manufactured or supplied by it will be free from defects in material and workmanship for a period of five (5) years or one thousand (1,000) hours, whichever comes first, from the date of delivery to the first purchaser. In the case of generators used for rental or demonstration purposes, this warranty coverage period begins on the date the generator is first used for such rental or demonstration purposes. This warranty is extended to all subsequent owners of the generator during the coverage period.

Repair or replacement parts are warranted for ninety (90) days from date of purchase, excluding labor and travel expenses. Any part repaired or replaced during the warranty period assumes the remainder of the warranty or ninety (90) days, whichever is greater.

ONAN'S RESPONSIBILITIES

Onan's obligation under the terms of this warranty is limited to the repair or replacement, at its option, of the generator or parts of the generator that do not conform to this warranty.

Onan will pay for the parts and labor, including diagnostic labor, to repair the generator. When necessary, Onan will also pay reasonable labor expenses associated with the removal and reinstallation of the generator into the customer's equipment, up to the maximum time of two (2) hours. For the first two (2) years of coverage, Onan will pay travel time up to two and one-half (2.5) hours and mileage cost up to one hundred (100) miles, if such work is done by an Onan distributor or other service representative designated by Onan.

OWNER'S RESPONSIBILITIES

The owner is obligated to operate and maintain the generator in accordance with the recommendations published by Onan in the genset's operator's manual. The owner is responsible for the costs associated with such maintenance and any adjustments that may be required.

All claims must be brought to the attention of Onan or an authorized distributor or its designated service representative within a reasonable time, preferably within thirty (30) days after discovery that the generator fails to meet this warranty.

The owner is responsible for payment of any of the following expenses that might be incurred as a result of a failure under the terms of this warranty:

1. Rental equipment used to replace the equipment being repaired.
2. Telephone or other communication expenses.
3. Living and travel expenses of the person making the repair (other than those outlined above).
4. The premium costs for overtime labor requested by the owner.
5. The cost of airfreight or other extraordinary expenses for shipment of parts over and above premium surface transportation.

LIMITATIONS

Onan is not responsible for the repair of generators that is required because of normal wear, accident, misuse, abuse, improper installation, corrosion, lack of maintenance, unauthorized modifications, the use of add-on or modified parts, improper storage or negligence.

NORMAL WEAR

This warranty will not cover repair where normal use has exhausted the life of a part or generator. Generators, like all mechanical devices, need periodic parts replacement and service to perform well. It should be remembered that the service life of any generator is dependent on the care it receives and the conditions under which it has to operate. Some applications are very dusty or dirty, which can cause excessive wear. Such wear, when caused by dirt, dust or other abrasive material that has entered the generator because of improper maintenance is not covered by warranty.

THERE IS NO OTHER EXPRESS WARRANTY.

IMPLIED WARRANTIES, INCLUDING MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, ARE LIMITED TO PERIODS OF WARRANTY SET FORTH ABOVE. TO THE EXTENT PERMITTED BY LAW, ANY AND ALL IMPLIED WARRANTIES ARE EXCLUDED. **NOTE:** Some states and provinces do not allow limitations on how long an implied warranty lasts, so the above limitations may not apply to you.

IN NO EVENT IS ONAN LIABLE FOR INCIDENTAL OR CONSEQUENTIAL DAMAGES. **NOTE:** Some states or provinces do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation or exclusion may not apply to you.

This warranty gives you specific legal rights, and you may also have other rights that may vary from state to state or province.

No person is authorized to give any other warranties or to assume any other liabilities on Onan's behalf, unless made or assumed in writing by an officer of Onan, and no person is authorized to give any warranties or assume any other liability on behalf of seller unless made or assumed in writing by seller.

Contact your Cummins/Onan distributor for questions regarding your warranty rights and responsibilities at 1-800-888-6626 (ONAN) and select **OPTION # 1** in the U.S. or Canada or refer to the F-118 Worldwide Distributor Sales and Service Directory; or visit our Website at www.onan.com.

Limited Warranty

Commercial Mobile Generating Sets

This limited warranty applies to all Cummins Onan® branded Commercial Mobile CMHG SERIES Hydraulic and PROTEC AC SERIES generating sets and associated accessories (hereinafter referred to as "Product").

This warranty covers any failures of the Product, under normal use and service, which result from a defect in material or factory workmanship.

Warranty Period:

The warranty start date is the date of sale of Product to the first retail purchaser by Cummins Power Generation®. The coverage duration is 5 years from warranty start date or 1,000 hours, whichever occurs first.

Cummins Power Generation® Responsibilities:

In the event of a failure of the Product during the warranty period due to defects in material or workmanship, Cummins Power Generation® will only be responsible for the following costs:

Years 1 & 2

- All parts and labor required to repair the Product.
- Maintenance items that are contaminated or damaged by a warrantable failure.
- Travel time up to 2.5 hours and mileage up to 100 miles for warranty related repairs.

Years 3-5

- All parts and labor required to repair the Product.

Owner Responsibilities:

The owner will be responsible for the following:

- Providing evidence of the date of sale to the first retail purchaser.
- Notifying Cummins Power Generation® distributor or dealer within 30 days of the discovery of failure.
- Installing, operating, commissioning and maintaining the Product in accordance with Cummins Power Generation®'s published policies and guidelines.
- Providing sufficient access to and reasonable ability to remove the Product from the installation in the event of a warrantable failure.

In addition, the owner will be responsible for:

- Incremental costs and expenses associated with Product removal and reinstallation resulting from non-standard installations.
- Costs associated with rental of generator sets used to replace the Product being repaired.
- Costs associated with labor overtime and premium shipping requested by the owner.
- All downtime expenses, fines, all applicable taxes, and other losses resulting from a warrantable failure.

Limitations:

This limited warranty does not cover Product failures resulting from:

- Inappropriate use relative to designated power rating.
- Inappropriate use relative to application guidelines.
- Normal wear, corrosion and varnished fuel system parts
- Owner's or operator's negligence, accidents or misuse.
- Lack of maintenance or improper repair.
- Noncompliance with any Cummins Power Generation® published guideline or policy.

- Use of improper or contaminated fuels, coolants or lubricants. Owner's delay in making Product available after notification of potential Product problem.
- Replacement parts and accessories not authorized by Cummins Power Generation®.

Limitations Continued:

- Operation without adequate coolant or lubricants.
- Lack of maintenance to lubricating, cooling or air intake systems.
- Late servicing and maintenance.
- Improper storage, starting, warm-up, run-in or shutdown practices.
- Damage to parts, fixtures, housings, attachments and accessory items that are not part of the generator set.

This limited warranty does not cover costs resulting from:

- Difficulty in gaining access to the Product.
- Damage to customer property.
- Repair of cosmetic damage to enclosures.

MANUFACTURER'S LIMITED WARRANTY

ONAN RV GENERATORS

Onan extends to the owner the following warranty covering goods manufactured or supplied by Onan, subject to the qualifications indicated.

THERE IS NO OTHER EXPRESS WARRANTY.

IN NO EVENT IS ONAN LIABLE FOR INCIDENTAL OR CONSEQUENTIAL DAMAGES.

IMPLIED WARRANTIES, INCLUDING MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, ARE LIMITED TO PERIODS OF WARRANTY SET FORTH BELOW. TO THE EXTENT PERMITTED BY LAW, ANY AND ALL IMPLIED WARRANTIES ARE EXCLUDED.

Note: Some states and provinces do not allow limitations on how long an implied warranty lasts, so the above limitations may not apply in every instance, and the user may also have other rights which vary from state to state or province.

No person is authorized to give any other warranties or to assume any other liabilities on Onan's behalf, unless made or assumed in writing by an officer of Onan, and no person is authorized to give any warranties or assume any other liability on behalf of Seller unless made or assumed in writing by Seller.

1. Onan warrants for the periods set forth below that goods manufactured or supplied by it will be free from defects in workmanship and material, provided such goods are installed, operated, and maintained in accordance with Onan's written instructions.

Onan's sole liability and Purchaser's sole remedy for a failure of goods under this warranty and for any and all other claims arising out of the purchase or use of the goods, including negligence on the part of the manufacturer, and damages to other genset components caused by the failure of a warranted part still under warranty, shall be limited to the repair of the product by the repair or replacement, at Onan's option, of parts that do not conform to this warranty, provided that the product or parts are returned to an Onan Authorized Distributor or its designated service representative, transportation prepaid.

Onan strongly recommends using only genuine Onan replacement parts, which are designed specifically for Onan products. Non-genuine Onan parts used in maintenance or repair that cause or substantially contribute to a failure, that failure, may not be covered by this warranty. An Onan authorized Distributor or its designated service representative authorized to perform warranty repairs will use only genuine Onan parts, unless Onan gives express written authorization. Such parts will be provided at no charge to the owner.

- A. Goods used in PERSONAL, FAMILY and HOUSEHOLD applications are warranted for a period of one (1) year from date of delivery to the first retail purchaser. This warranty is extended to all subsequent owners of the genset during the coverage period. Emission related components such as the carburetor, ignition system, spark plugs, intake and exhaust manifolds, mufflers, catalytic converters, fuel filters, gaseous fuel regulators and related belts, hoses and connectors are warranted for a period of two (2) years. Exceptions:
 - i. Goods designed for and used in a recreational vehicle are warranted for a period of three (3) years or two thousand (2,000) hours, whichever occurs first, from date of delivery to the first retail purchaser. Parts and labor, including diagnostic labor are covered for the first two (2) years. Selected power train and generator parts covered in the third year and within two thousand (2,000) hours are:
 - A. Selected power train parts: cylinder block, cylinder heads, crankshaft, camshaft, balance shafts, pistons, rings, valves, valve lifters, manifolds and major castings.
 - B. Selected generator parts: main stator, main rotor and generator inverter.
 - ii. The warranty period for the drive train belt and pulleys on the **HGJ** series generators used in recreational vehicles shall be the life of the generator. For the original owner, this drive train warranty shall include parts and labor. For succeeding owners, this power train warranty shall cover belt and pulley parts only.
 - iii. Recreational vehicle sets used in commercial applications, or applications such as Prime Power or Standby Power, are warranted for one (1) year or one thousand (1,000) hours from date of sale to the first retail purchaser.
 - iv. Recreational vehicle sets used for rental or demonstration purposes are warranted for a period of one (1) year or one thousand (1,000) hours, whichever occurs first, from the date the genset is first used for rental or demonstration purposes.

- v. **HDCAB** was designed and intended for use in recreational vehicle applications only. This unit used in anything but the RV application voids the warranty.
- B. Repair or replacement parts are warranted for ninety (90) days from date of purchase, excluding labor and travel expenses. Any part repaired or replaced during the base warranty period assumes the remainder of that warranty period or ninety (90) days, whichever is greater.
2. Except as indicated below, this warranty does not include adjustments, travel time, mileage or labor for removal of an Onan product from its application and reinstallation.
 - A. Adjustments:
Onan will pay for minor external adjustments on recreational vehicle generators used in personal, family, and household use for a period of ninety (90) days from date of delivery to the first retail purchaser, provided such warranty labor is performed by an Onan authorized distributor, dealer or designated service representative.
 - B. Removal and Reinstallation:
Onan will pay the following stated labor at straight time only for warranty work requiring removal and reinstallation of Onan RV products provided such warranty labor is performed by an Onan authorized distributor or its designated service representative.
 - i. On-Highway recreational vehicle applications up to a maximum of two (2) hours.
 - ii. Only one (1) hour will be allowed for the **KY** model generator sets.
 3. Maintenance items such as spark plugs, oil filter, fuel filter, air filter, belts and hoses will be covered for the period of time up to the first scheduled replacement or service interval for each item, if found to be defective. Normal wear for these items will not be covered if they require replacement before the first scheduled replacement point due to operating conditions.
 4. All claims must be brought to the attention of a Cummins/Onan authorized distributor or its designated service representative within a reasonable time, preferably within thirty (30) days after discovery that goods or parts fail to meet this warranty.
 5. THIS WARRANTY SHALL NOT APPLY TO:
 - A. Cost of maintenance, adjustments, installation and start-up, except as specifically included in paragraph 2A.
 - B. Failures due to normal wear, corrosion, varnished fuel system parts, accident, misuse, abuse, negligence, improper installation, lack of reasonable and necessary maintenance, unauthorized modifications, the use of add-on or modified parts, improper storage and improper or contaminated fuel.
 - C. Products which are altered or modified in a manner not authorized by manufacturer in writing.
 - D. Failure of goods caused by defects in the system or application in which the goods are installed.
 - E. Telephone, telegraph, Teletype or other communication expenses.
 - F. Living and travel expenses of persons performing service, except as specifically included in Section 2.
 - G. Rental equipment used while warranty repairs are being performed.
 - H. Overtime labor requested by purchaser.
 - I. Starting batteries.
 - J. Airfreight or other extraordinary expenses for shipment of parts over and above premium surface transportation.
 6. If you have any questions regarding your warranty rights and responsibilities, contact your Cummins/Onan distributor by dialing 1-800-888-ONAN (6626) and select **OPTION #1** and ask for the warranty administrator.
 7. Optional extended warranty coverage for recreational vehicle generator sets must be purchased within the first year after the date of delivery to the first retail purchaser. Parts and labor, including diagnostic labor and removal and reinstallation, are covered for five (5) years or two thousand (2,000) hours, whichever comes first. The extended warranty is available only in the U.S. and Canada. See your Cummins/Onan distributor for details.

AB-2012-02 Onan RV Generators: Manufacturer's Limited Warranty

Basic Coverage

Onan extends to the owner the following warranty covering goods manufactured or supplied by Onan, subject to the qualifications indicated.

Onan's sole liability and Purchaser's sole remedy for a failure of goods under this warranty and for any and all other claims arising out of the purchase or use of the goods, including negligence on the part of the manufacturer, and damages to other genset components caused by the failure of a warranted part still under warranty, shall be limited to the repair of the product by the repair or replacement, at Onan's option, of parts that do not conform to this warranty, provided that the product or parts are returned to an Onan Authorized Distributor or its designated service representative, transportation prepaid.

Onan strongly recommends using only genuine Onan replacement parts, which are designed specifically for Onan products. Non-genuine Onan parts used in maintenance or repair that cause or substantially contribute to a failure, that failure, may not be covered by this warranty. An Onan authorized Distributor or its designated service representative authorized to perform warranty repairs will use only genuine Onan parts, unless Onan gives express written authorization. Such parts will be provided at no charge to the owner.

Emission related components such as the carburetor, ignition system, spark plugs, intake and exhaust manifolds, mufflers, catalytic converters, fuel filters, gaseous fuel regulators and related belts, hoses and connectors are warranted for a period of two (2) years. Detailed information is explained in the "CALIFORNIA AND FEDERAL EMISSION CONTROL WARRANTY STATEMENT".

Coverage Period

Onan warrants for the periods set forth below that goods manufactured or supplied by it will be free from defects in workmanship and material, provided such goods are installed, operated, and maintained in accordance with Onan's written instructions.

1. Goods used in PERSONAL, FAMILY and HOUSEHOLD applications are warranted for a period of (1) year from date of delivery to the first retail purchaser. This warranty is extended to all subsequent owners of the genset during the coverage period. Exceptions are as follows:
 - A. Goods designed for and used in a recreational vehicle are warranted for a period of three (3) years or two thousand (2,000) hours, whichever occurs first, from date of delivery to the first retail purchaser. Parts and labor, including diagnostic labor are covered for the first two (2) years. Selected power train and generator parts covered in the third year and within two thousand (2,000) hours are:
 - i. Selected power train parts: cylinder block, cylinder heads, crankshaft, camshaft, balance shafts, pistons, rings, valves, valve lifters, manifolds and major castings.
 - ii. Selected generator parts: main stator, main rotor and generator inverter.

- B. The warranty period for the drive train belt and pulleys on the **HGJ** series generators used in recreational vehicles shall be the life of the generator. For the original owner, this drive train warranty shall include parts and labor. For succeeding owners, this power train warranty shall cover belt and pulley parts only.
 - C. Recreational vehicle sets used in commercial applications, or applications such as Prime Power or Standby Power, are warranted for one (1) year or one thousand (1,000) hours from date of sale to the first retail purchaser.
 - D. Recreational vehicle sets used for rental or demonstration purposes are warranted for a period of one (1) year or one thousand (1,000) hours, whichever occurs first, from the date the genset is first used for rental or demonstration purposes.
 - E. **HDCAB** was designed and intended for use in recreational vehicle applications only. This unit used in anything but the RV application voids the warranty.
2. Repair or replacement parts are warranted for ninety (90) days from date of purchase, excluding labor and travel expenses. Any part repaired or replaced during the base warranty period assumes the remainder of that warranty period or ninety (90) days, whichever is greater.

Coverage Description

1. Except as indicated below, this warranty does not include adjustments, travel time, mileage or labor for removal of an Onan product from its application and reinstallation.
- A. Adjustments:

Onan will pay for minor external adjustments on recreational vehicle generators used in personal, family, and household use for a period of ninety (90) days from date of delivery to the first retail purchaser, provided such warranty labor is performed by an Onan authorized distributor, dealer or designated service representative.
 - B. Removal and Reinstallation:

Onan will pay the following stated labor at straight time only for warranty work requiring removal and reinstallation of Onan RV products provided such warranty labor is performed by an Onan authorized distributor or its designated service representative.

 - i. On-highway recreational vehicle applications up to a maximum of two (2) hours.
 - ii. Only one (1) hour will be allowed for the KY model generator sets.
2. Maintenance items found to be defective such as spark plugs, oil filter, fuel filter, air filter, belts and hoses will be covered for a period of (2) years or up to the first scheduled replacement or service interval for each item, whichever comes first. These items will not be covered if they require replacement before the first scheduled replacement point due to operating conditions.
3. All claims must be brought to the attention of a Cummins/Onan authorized distributor or its designated service representative within a reasonable time, preferably within thirty (30) days after discovery that goods or parts fail to meet this warranty.

4. This warranty does not apply to the following:
 - A. Cost of maintenance, adjustments, installation and start-up, except as specifically included under Coverage Description, number 1A, Adjustments.
 - B. Failures due to normal wear, corrosion, varnished fuel system parts, accident, misuse, abuse, negligence, improper installation, lack of reasonable and necessary maintenance, unauthorized modifications, the use of add-on or modified parts, improper storage and improper or contaminated fuel.
 - C. Products that are altered or modified in a manner not authorized by manufacturer in writing.
 - D. Failure of goods caused by defects in the system or application in which the goods are installed.
 - E. Telephone, telegraph, teletype or other communication expenses.
 - F. Living and travel expenses of persons performing service, except as specifically included under Coverage Period, number 2.
 - G. Rental equipment used while warranty repairs are being performed.
 - H. Overtime labor requested by purchaser.
 - I. Starting batteries.
 - J. Airfreight or other extraordinary expenses for shipment of parts over and above premium surface transportation.

Miscellaneous Damages

In no event is Onan liable for incidental or consequential damages.

Other Warranties

There is no other express warranty. Implied warranties, including merchantability and fitness for a particular purpose, are limited to periods of warranty set forth below. To the extent permitted by law, any and all implied warranties are excluded. Note, some states and provinces do not allow limitations on how long an implied warranty lasts, so the above limitations may not apply in every instance, and the user may also have other rights that vary from state to state or province.

No person is authorized to give any other warranties or to assume any other liabilities on Onan's behalf, unless made or assumed in writing by an officer of Onan. No person is authorized to give any warranties or assume any other liability on behalf of Seller unless made or assumed in writing by Seller.

Questions

If you have any questions regarding your warranty rights and responsibilities, contact your Cummins/Onan distributor by dialing **1-800-888-Onan (6626)** and select **option #1** and ask for the warranty administrator.

Extended Warranty

Optional extended warranty coverage for recreational vehicle generator sets must be purchased within the first year after the date of delivery to the first retail purchaser. Parts and labor, including diagnostic labor and removal and reinstallation, are covered for five (5) years or two thousand (2,000) hours, whichever comes first. The extended warranty is available only in the U.S. and Canada. See your Cummins/Onan distributor for details.

AB-2012-03 Cummins Power Generation RV Generators: Manufacturer's Limited Warranty

1. COVERAGE

Cummins Power Generation (CPG) provides this warranty covering its recreational vehicle generators manufactured or sold by CPG on or after May 1, 2007 ("products"), subject to the limitations indicated.

CPG's sole liability and Purchaser's sole remedy for a failure of products due to defects in material or factory workmanship under this warranty and for any and all other claims arising out of the purchase or use of the products, including negligence on the part of the manufacturer, shall be limited to the repair or replacement of the product, at CPG's option, provided that the product is returned transportation prepaid to a CPG authorized distributor, dealer, or their designated service representative.

CPG recommends using only genuine CPG replacement parts, which are designed specifically for CPG products. Non-genuine CPG parts used in maintenance or repair that cause, or substantially contribute to a failure, may result in that failure not being covered by this warranty. A CPG authorized distributor, dealer, or its designated service representative authorized to perform warranty repairs will use only genuine CPG parts, unless CPG gives express written authorization. Such repairs will be provided at no charge to the owner.

Emission related components such as the carburetor, ignition system, spark plugs, intake and exhaust manifolds, mufflers, catalytic converters, fuel filters, gaseous fuel regulators and related belts, hoses and connectors are warranted for a period of two (2) years from the date of the first retail purchase. Detailed information is explained in the "CALIFORNIA AND FEDERAL EMISSION CONTROL WARRANTY STATEMENT" included with your literature package.

2. COVERAGE PERIOD

CPG warrants for the periods set forth below that any product or product component that fails due to a defect in CPG material or workmanship will be repaired or replaced at CPG's option, provided such products are installed, operated, and maintained in accordance with CPG written instructions for generators used in recreational vehicles.

Any replacement part installed as part of a warranty repair assumes the remainder of that warranty period.

This warranty is extended to all subsequent owners of the product during the coverage period.

3. COVERAGE DESCRIPTION

Base Warranty: These products are warranted for a period beginning with the sale by CPG and ending two (2) years or two thousand (2,000) hours, whichever occurs first, from date of purchase by the first retail purchaser.

Extended Major Component Warranty: The following power train, generator and electronic components are warranted for a period beginning with the sale by CPG and ending three (3) years or two thousand (2,000) hours of generator or power unit operation, whichever occurs first, from date of purchase by the first retail purchaser:

- i. Covered power train components: Cylinder block, cylinder heads, crankshaft, camshaft, balance shafts, pistons, rings, valves, valve lifters, manifolds and major castings.
- ii. Covered generator components: main stator, main rotor and generator controller-inverter.
- iii. Covered electronic components: inverter, transfer switch and serialized display panel.

Belt Drive Generators Only: The drive train belt, pulleys, tensioner arm and coupler on CPG belt drive generators used in recreational vehicles are warranted beginning with the sale by CPG for the life of the generator to the first retail purchaser; including parts and labor. Succeeding owners have coverage of these components only: no labor coverage is provided.

CPG will pay CPG's documented standard repair time only for removal and reinstallation of Cummins Onan recreational vehicle generator products requiring warranty repair provided such warranty repair is performed by an Cummins Onan authorized distributor or their designated service representative.

All claims must be submitted to a CPG authorized distributor, dealer, or their designated service representative within thirty (30) days after the product or product component has failed due to a defect.

4. LIMITATIONS AND EXCLUSIONS

This warranty does not cover:

- A. Cost of maintenance, adjustments, installation and start-up.
- B. Wear or wear out of covered products or their components, or failures due to normal wear, corrosion, fuel system failures related to stale or varnished fuel, accident, misuse, abuse, negligence, improper installation, lack of reasonable and necessary maintenance, unauthorized modifications, the use of add-on or modified parts, improper storage and improper or contaminated fuel.
- C. Failures due to a product alteration or modification not authorized by CPG in writing.
- D. Product failures due to defects in the system or application in which a product is installed.
- E. Telephone, telegraph, teletype or other communication expenses.
- F. Living and travel expenses.
- G. Rental equipment used while warranty repairs are being performed.
- H. Overtime labor requested by owner.
- I. Batteries.
- J. Airfreight or other extraordinary expenses for shipment of parts over and above premium surface transportation.
- K. Mileage, food, lodging and other travel costs.
- L. Maintenance items such as spark plugs, oil filter, fuel filter, air filter, belts, hoses and fluids are not covered except as provided in the applicable CPG Emissions Warranty, or if they are rendered unusable by a failure that is covered by warranty.

In no event shall CPG be liable for incidental or consequential damages.

This warranty is the sole warranty made by CPG in regard to its products. CPG makes no warranties, express or implied, or of merchantability or fitness for a particular purpose. Note, this warranty gives the owner specific legal rights, and owner may also have other rights that vary from state to state or province.

No person is authorized to give any other warranties or to assume any other liabilities on CPG's behalf, unless made or assumed in writing by an officer of CPG. No person is authorized to give any warranties or assume any other liability on behalf of CPG unless made or assumed in writing by Seller.

5. QUESTIONS

If you have any questions regarding your warranty rights and responsibilities, contact your Cummins Onan distributor by dialing **1-800-888-6626** and select **option #1** and ask for the warranty administrator.

6. EXTENDED WARRANTY

Optional extended warranty coverage for recreational vehicle generator sets must be purchased within the first year after the date of delivery to the first retail purchaser. Parts and labor, including diagnostic labor and removal and reinstallation, are covered for five (5) years or two thousand (2,000) hours of generator or power unit operation, whichever comes first. The extended warranty is available only in the U.S. and Canada. See your Cummins Onan distributor for details.

Limited Warranty

RV Generator Sets

This limited warranty applies to all Cummins Power Generation® branded RV Generator Sets (hereinafter referred to as "Product").

This warranty covers any failures of the Product, under normal use and service, which result from a defect in material or factory workmanship.

Warranty Period:

The warranty start date is the date of sale of Product to the first retail purchaser by Cummins Power Generation®. This limited warranty coverage for this product shall be three (3) years or two thousand (2,000) hours, whichever occurs first, from the date of sale to the first retail purchaser.

Cummins Power Generation® Responsibilities:

In the event of a failure of the Product during the extended warranty period due to defects in material or workmanship, Cummins Power Generation® will only be responsible for the following costs:

- All parts and labor required to repair the Product.
- Maintenance items that are contaminated or damaged by a warrantable failure.

Owner Responsibilities:

The owner will be responsible for the following:

- Providing evidence of the date of sale to the first retail purchaser.
- Notifying Cummins Power Generation® distributor or dealer within 30 days of the discovery of failure.
- Installing, operating, commissioning and maintaining the Product in accordance with Cummins Power Generation®'s published policies and guidelines.
- Providing sufficient access to and reasonable ability to remove the Product from the installation in the event of a warrantable failure.

In addition, the owner will be responsible for:

- Incremental costs and expenses associated with Product removal and reinstallation resulting from non-standard installations.
- Rental equipment used while warranty repairs are being performed.
- Costs associated with labor overtime and premium shipping requested by the owner.

Limitations:

This limited extended warranty does not cover Product failures resulting from:

- Inappropriate use relative to application guidelines.
- Failures due to normal wear, corrosion, varnished fuel system parts, accident, misuse, abuse, negligence, improper installation, lack of reasonable and necessary maintenance, unauthorized modifications, the use of add-on or modified parts, improper storage and improper or contaminated fuel.
- Living and travel expenses
- Telephone or other communication expenses
- Improper and/or unauthorized installation.
- Owner's or operator's negligence, accidents or misuse.
- Lack of maintenance or improper repair.
- Noncompliance with any Cummins Power Generation® published guideline or policy.

Limitations Continued:

- Use of improper or contaminated fuels, coolants or lubricants.
- Improper storage before and after commissioning.
- Owner's delay in making Product available after notification of potential Product problem.
- Replacement parts and accessories not authorized by Cummins Power Generation®.
- Damage to parts, fixtures, housings, attachments and accessory items that are not part of the generator set.
- Owner or operator abuse or neglect such as: operation without adequate coolant or lubricants; over fueling; over speeding; lack of maintenance to lubricating, cooling or air intake systems; late servicing and maintenance; improper storage, starting, warm-up, run-in or shutdown practices, or for progressive damage resulting from a defective shutdown or warning device.
- Failure of goods caused by defects in the system or application in which the goods are installed.
- Airfreight or other extraordinary expenses for shipment of parts over and above premium surface transportation.

This limited extended warranty does not cover costs resulting from:

- Difficulty in gaining access to the Product.
- Repair of cosmetic damage to enclosures.

Limited Warranty

RV Generating Sets

This limited warranty applies to all Cummins Onan® branded RV generating sets and associated accessories (hereinafter referred to as "Product").

This warranty covers any failures of the Product, under normal use and service, which result from a defect in material or factory workmanship.

Warranty Period:

The warranty start date is the date of sale of Product to the first retail purchaser by Cummins Power Generation®. The coverage duration is 3 years from warranty start date or 2,000 hours, whichever occurs first.

Cummins Power Generation® Responsibilities:

In the event of a failure of the Product during the warranty period due to defects in material or workmanship, Cummins Power Generation® will only be responsible for the following costs:

Years 1 & 2

- All parts and labor required to repair the Product.
- Maintenance items that are contaminated or damaged by a warrantable failure.

Years 3

- Major components only†.

†Major components for power train included: cylinder block, cylinder heads, crankshaft, camshaft, balance shafts, pistons, rings, valves, valve lifters, manifolds, and major castings.

†Major components for generator included: main stator, main rotor, and generator controller-inverter.

†Major components for electronic included: inverter, and display panel.

Owner Responsibilities:

The owner will be responsible for the following:

- Providing evidence of the date of sale to the first retail purchaser.
- Notifying Cummins Power Generation® distributor or dealer within 30 days of the discovery of failure.
- Installing, operating, commissioning and maintaining the Product in accordance with Cummins Power Generation®'s published policies and guidelines.
- Providing sufficient access to and reasonable ability to remove the Product from the installation in the event of a warrantable failure.

In addition, the owner will be responsible for:

- Incremental costs and expenses associated with Product removal and reinstallation resulting from non-standard installations.
- Costs associated with rental of generator sets used to replace the Product being repaired.
- Costs associated with labor overtime and premium shipping requested by the owner.
- All downtime expenses, fines, all applicable taxes, and other losses resulting from a warrantable failure.

Limitations:

This limited warranty does not cover Product failures resulting from:

- Inappropriate use relative to designated power rating.
- Inappropriate use relative to application guidelines.
- Failures due to normal wear, corrosion, varnished fuel system parts, accident, misuse, abuse, negligence, improper installation, lack of reasonable and necessary maintenance, unauthorized modifications, the use of add-on or modified parts, improper storage and improper or contaminated fuel.
- Living and travel expenses.
- Telephone or other communication expenses.
- Improper and/or unauthorized installation.

Limitations Continued:

- Owner’s or operator’s negligence, accidents or misuse.
- Lack of maintenance or improper repair.
- Noncompliance with any Cummins Power Generation® published guideline or policy.
- Use of improper or contaminated fuels, coolants or lubricants.
- Improper storage before and after commissioning.
- Owner’s delay in making Product available after notification of potential Product problem.
- Replacement parts and accessories not authorized by Cummins Power Generation®.
- Owner or operator abuse or neglect such as: operation without adequate coolant or lubricants; over fueling; over speeding; lack of maintenance to lubricating, cooling or air intake systems; late servicing and maintenance; improper storage, starting, warm-up, run-in or shutdown practices, or for progressive damage resulting from a defective shutdown or warning device.
- Damage to parts, fixtures, housings, attachments and accessory items that are not part of the generator set.

This limited warranty does not cover costs resulting from:

- Difficulty in gaining access to the Product.
- Damage to customer property.
- Repair of cosmetic damage to enclosures.

Limited Warranty

RV Generator Sets

This limited warranty applies to all Cummins Onan® branded RV generating sets and associated accessories (hereinafter referred to as "Product").

This warranty covers any failures of the Product, under normal use and service, which result from a defect in material or factory workmanship.

Warranty Period:

CPG warrants for the periods set forth below that any product or product component that fails due to a defect in CPG material or workmanship will be repaired or replaced at CPG's option, provided such products are installed, operated, and maintained in accordance with CPG written instructions for generators used in recreational vehicles.

The warranty start date is the date of sale of Product to the first retail purchaser. The coverage duration is 3 years from warranty start date or 2,000 hours, whichever occurs first.

For RV generators used in non Recreational Vehicle applications**, the warranty coverage duration is 1 year from warranty start date or 1,000 hours, whichever occurs first:

1 Year, 1000 hours

- Parts and labor required to repair the Product.
- Maintenance items that are contaminated or damaged by a warrantable failure.

Generator sets used for demonstration purposes, coverage commences at one hundred (100) hours or from the date of sale to the first retail purchaser, whichever comes first.

Replacement parts installed as a part of a warranty repair assumes the remainder of the products warranty period. This includes complete product replacement under warranty.

Warranty coverage is transferable to subsequent owners.

**Recreational Vehicle is defined as having all of the following amenities.

- Sleeping quarters
- Kitchen
- Bathroom facilities

Pop-up tent campers are considered RV applications

Cummins Power Generation® Responsibilities:

In the event of a failure of the Product during the warranty period due to defects in material or workmanship, Cummins Power Generation® will only be responsible for the following costs:

Years 1 & 2

- Parts and labor required to repair the Product.
- Maintenance items that are contaminated or damaged by a warrantable failure.

Year 3

- Parts and labor required to repair the Major components of the Product only†.
- Maintenance items that are contaminated or damaged by a warrantable failure of a Major component†.

†Major components for power train included: cylinder block, cylinder heads, crankshaft, camshaft, balance shafts, pistons, rings, valves, valve lifters, manifolds, and major castings.

†Major components for generator included: main stator, main rotor, and generator controller-inverter.

†Major components for electronic included: inverter, transfer switch and display panel.

Owner Responsibilities:

The owner will be responsible for the following:

- Providing evidence of the date of sale to the first retail purchaser.
- Notifying Cummins Power Generation® distributor or dealer within 30 days of the discovery of failure.
- Operating and maintaining the Product in accordance with Cummins Power Generation®'s published policies and guidelines.

- Providing sufficient access to and reasonable ability to remove the Product from the installation in the event of a warrantable failure.

In addition, the owner will be responsible for:

- Incremental costs and expenses associated with Product removal and reinstallation resulting from non-standard installations.
- Costs associated with rental of generator sets used to replace the Product while the Product is being repaired.
- Costs associated with labor overtime, travel time, mileage and premium shipping requested by the owner.
- All downtime expenses, fines, all applicable taxes, and other losses resulting from a warrantable failure.
- Living and travel expenses.
- Telephone or other communication expenses.

Limitations:

This limited warranty does not cover Product failures resulting from:

- Inappropriate use relative to designated power rating.
- Inappropriate use relative to application and installation guidelines.
- Normal wear, rust, corrosion and varnished fuel system components.
- Owner or operator’s negligence, accidents or misuse.
- Lack of, late or improper maintenance practices or improper repair.
- Use of improper or contaminated fuels, coolants or lubricants.
- Operation without adequate coolant or lubricants.
- Owner’s delay in making Product available after notification of potential Product problem.
- Use of add-on, modified or replacement parts and accessories not authorized by Cummins Power Generation®.
- Noncompliance with any Cummins Power Generation® published guideline or policy.
- Improper storage, starting, and break-in practices.
- Damage to parts, fixtures, housings, attachments and accessory items that are not part of the generator set.

This limited warranty does not cover costs resulting from:

- Difficulty in gaining access to the Product.
- Damage to customer property.
- Cosmetic damage to enclosures.

PowerCommand Generator Set Controllers Limited Warranty

Limited Warranty

OEM Control Kits

This limited warranty applies to all Cummins Power Generation® (CPG) brand OEM Control Kits (hereinafter referred to as "Product")

Product will be free from:

- Defects in material.
- Workmanship issues.

Warranty Period:

The warranty coverage duration is One Year. The warranty start date is established at the time of commissioning, as long as the date of commissioning does not exceed:

- 6 months after delivery for product installations.

CPG Responsibilities:

In the event of a failure due to defects in material or workmanship, CPG will pay expenses associated with

- Replacement Parts Only

Owner Responsibilities:

The owner will be responsible for the following:

- Labor Costs.
- Notify CPG distributor or dealer within 30 days of the discovery of failure.
- Installation, operation and maintenance of the Product in accordance with the recommendations published by CPG.
- Cost of rental generating sets used to replace the Product being repaired.
- Other downtime expenses, all business costs and losses resulting from the warrantable failure.
- Provide evidence for date of commissioning.

Limitations:

This limited warranty does not cover Product failures resulting from:

- Inappropriate use relative to designated power rating.
- Normal wear.
- Improper and/or unauthorized installation.
- Negligence, accidents or misuse.
- Lack of maintenance or unauthorized repair.
- Use of product outside specified parameters.
- Improper storage before and after commissioning.
- Owners delay in making Product available after notification of potential Product problem.
- Replacement parts and accessories not authorized by CPG.
- Battle Short Mode use.

This limited warranty does not cover costs resulting from:

- Difficulty in gaining access to the Product.
- Repair of cosmetic damage to enclosures.

There is no other express warranty, and no person is authorized to give any other warranties or to assume any other liabilities on Cummins Power Generation's behalf unless made or assumed in writing by an officer of Cummins Power Generation. Implied warranties, including merchantability and fitness for a particular purpose are limited to the periods of coverage set forth above. To the extent permitted by law, any and all implied warranties are excluded. In no event is Cummins Power Generation liable for incidental or consequential damages.

This warranty gives the owner specific legal rights. The owner may also have other rights which vary depending on local laws. In some areas, local laws do not allow limitations on how long an implied warranty lasts or do not allow the exclusion of incidental or consequential damages, so the above limitations may not apply to you.

Warranty Statement

Remote Monitoring System

PowerCommand[®] 500/550

Limited Warranty

PowerCommand® 500/550

This limited warranty applies to the Cummins Power Generation® branded PowerCommand 500/550 module and associated accessories (hereinafter referred to as "Product").

This warranty covers any failures of the Product, under normal use and service, which result from a defect in material or factory workmanship.

Warranty Period:

The warranty coverage is for a period of 1 year from the date of commissioning, demonstration or 18 months after factory ship date, whichever is sooner.

Cummins Power Generation Responsibilities:

In the event of a failure of the Product during the warranty period due to defects in material or workmanship, Cummins Power Generation will only be responsible for the following costs:

- All parts and labor required to repair the Product.
- Reasonable travel expenses to and from the Product site location.

Owner Responsibilities:

The owner will be responsible for the following:

- Notifying Cummins Power Generation distributor or dealer within 30 days of the discovery of failure.
- Installing, operating, commissioning and maintaining the Product in accordance with the Cummins Power Generation published policies and guidelines.
- Providing evidence for date of commissioning.
- Software updates are user installable and will not be covered by onsite service. Phone support is available to assist.
- Please do not remove "Warranty Void if Removed" sticker that is placed on the device. If sticker is removed, warranty coverage will be voided.

Limitations:

This limited warranty does not cover Product failures resulting from:

- Inappropriate use relative to application guidelines.
- Normal wear and tear.
- Improper and/or unauthorized installation.
- Negligence, accidents or misuse.
- Noncompliance with any Cummins Power Generation published guidelines or policy.
- Improper storage before and after commissioning.

This limited warranty does not cover costs resulting from:

- Damage to owner's property or other connected devices.

Please contact your local Cummins Power Generation Distributor for clarification concerning these limitations.

CUMMINS POWER GENERATION RIGHT TO FAILED COMPONENTS:

Failed components claimed under warranty remain the property of Cummins Power Generation. Cummins Power Generation has the right to reclaim any failed component that has been replaced under warranty.

THE WARRANTIES SET FORTH HEREIN ARE THE SOLE WARRANTIES MADE BY CUMMINS POWER GENERATION IN REGARD TO THE PRODUCT. CUMMINS POWER GENERATION MAKES NO OTHER WARRANTIES, EXPRESS OR IMPLIED, OR OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE.

IN NO EVENT IS CUMMINS POWER GENERATION LIABLE FOR INCIDENTAL OR CONSEQUENTIAL DAMAGES.

This limited warranty shall be enforced to the maximum extent permitted by applicable law. This limited warranty gives the owner specific rights that may vary from state to state or from jurisdiction to jurisdiction.

MANUFACTURER'S LIMITED WARRANTY

ONAN® MOBILE POWER AUX™ PRODUCTS

COVERAGE PERIOD

Provided goods are operated and maintained in accordance with Onan's written instructions, Onan warrants that the AUX engine will be free from defects in material and workmanship for a period of two (2) years or five thousand (5,000) hours, and the AUX compressor and other Onan-supplied components will be free from defects in material and workmanship for a period of one (1) year or two thousand five hundred (2,500) hours. The warranty period begins on the date of original purchase. This warranty is transferable to all subsequent owners of the AUX.

Depending on the model and specification of your product, the emission control system, which may include parts such as the carburetor, ignition system, spark plugs, injection pump, fuel injectors, air induction system, intake manifold, exhaust manifold, catalytic converter, fuel filters, and related hoses, belts and connectors that are part of the AUX is warranted for a period of two (2) years.

Any replacement part that is equivalent with respect to the functional performance of the original part may be used in the performance of any maintenance or repairs. If any non-genuine Onan part causes or substantially contributes to a failure, that failure may not be covered by warranty. Distributors and dealers authorized to perform warranty service will use only genuine Onan parts in that work, and such parts will be provided at no charge to the owner.

Repair or replacement parts are warranted for ninety (90) days from date of purchase, excluding labor and travel expenses. Any part repaired or replaced during the warranty period assumes the remainder of that warranty period.

ONAN'S RESPONSIBILITIES

Onan's obligation is limited to the repair or replacement, at its option, of the engine, compressor and other Onan-supplied components that do not conform to this warranty.

Onan will pay for the parts and labor, including diagnostic labor on emissions related failures, needed to repair the engine. When necessary, Onan will also pay reasonable labor expenses associated with the removal and reinstallation of the AUX engine into the customer's equipment up to the maximum time of two (2) hours if such work is done by an Onan Distributor or other service representative designated by Onan.

The cost of maintenance items such as fuel system components, oil filter, fuel filter, air filter, belts, and hoses will be paid for the period of time up to the first scheduled replacement point.

OWNER'S RESPONSIBILITIES

The owner is obligated to operate and maintain the product in accordance with the recommendations published by Onan in the Operator's Manual for the AUX. The owner is responsible for the costs associated with such maintenance and any adjustments which may be required.

All claims must be brought to the attention of Onan or an authorized Distributor or its designated service representative within a reasonable time, preferably within 30 days after discovery that the product fails to meet this warranty.

The owner is responsible for payment of any of the following expenses that might be incurred as a result of a failure under the terms of this warranty:

1. Rental equipment used to replace the equipment being repaired
2. Telephone or other communication expenses
3. Living and travel expenses of the person making the repair
4. The premium costs for overtime labor requested by the owner
5. The cost of air freight or other extraordinary expenses for shipment of parts over and above premium surface transportation

LIMITATIONS

Onan is not responsible for repair of the product that is required because of normal wear, accident, misuse, abuse, improper installation, lack of maintenance, unauthorized modifications, the use of add-on or modified parts, improper storage, negligence, improper or contaminated fuel.

NORMAL WEAR

This warranty will not cover repair where normal use has exhausted the life of a part, engine or compressor. Engines and compressors, like all mechanical devices, need periodic parts replacement and service to perform well. It should be remembered that the service life of any product is dependent on the care it receives and the conditions under which it has to operate. Some applications are very dusty or dirty, which can cause excessive wear. Such wear, when caused by dirt, dust or other abrasive material which has entered the engine or compressor because of improper maintenance, is not covered by Warranty.

THERE IS NO OTHER EXPRESS WARRANTY.

IMPLIED WARRANTIES, INCLUDING MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, ARE LIMITED TO PERIODS OF WARRANTY SET FORTH ABOVE. TO THE EXTENT PERMITTED BY LAW, ANY AND ALL IMPLIED WARRANTIES ARE EXCLUDED. **NOTE:** Some states and provinces do not allow limitations on how long an implied warranty lasts, so the above limitations may not apply to you.

IN NO EVENT IS ONAN LIABLE FOR INCIDENTAL OR CONSEQUENTIAL DAMAGES. **NOTE:** Some states or provinces do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation or exclusion may not apply to you.

This warranty gives you specific legal rights, and you may also have other rights which vary from state to state or province.

No person is authorized to give any other warranties or to assume any other liabilities on Onan's behalf, unless made or assumed in writing by an officer of Onan, and no person is authorized to give any warranties or assume any other liability on behalf of seller unless made or assumed in writing by seller.

If you have any questions regarding your warranty rights and responsibilities, you should contact your Cummins/Onan distributor by calling 1-800-888-6626.

AB 2010-01 ComfortGuard™ APU System Manufacturer's Limited Warranty

Base Coverage

Provided goods are operated and maintained in accordance with Cummins Power Generation (CPG) written instructions, this warranty covers any failures of the ComfortGuard product, under normal use and service, which result from defect in material or workmanship (warrantable failure). The duration of the coverage begins at the date of purchase and shall continue for a period of two (2) years or four thousand (4,000) hours. This warranty is transferable to all subsequent ComfortGuard owners.

Depending on the model and specification of your product, the emission control system, (which may include parts such as the ignition system, injection pump, fuel injectors, air induction system, intake manifold, exhaust manifold, catalytic converter, fuel filters, and related hoses, belts and connectors that are part of the ComfortGuard) is warranted for a period of two (2) years.

Any replacement part that is equivalent with respect to the functional performance of the original part may be used in the performance of any maintenance or repairs. If any non-genuine CPG part causes or substantially contributes to a failure, that failure may not be covered by warranty. Distributors and dealers authorized to perform warranty service will use only genuine CPG parts in that work, and such parts will be provided at no charge to the owner.

Repair or replacement parts are warranted for ninety (90) days from date of purchase, excluding labor and travel expenses. Any part repaired or replaced during the warranty period assumes the remainder of that warranty period.

CPG Responsibilities

The obligation of CPG is limited to the repair or replacement, at its option, of the engine, and other CPG-supplied components that do not conform to this warranty.

CPG will pay for the parts and labor, including diagnostic labor on emissions related failures, needed to repair the engine. When necessary, CPG will also pay reasonable labor expenses associated with the removal and reinstallation of the ComfortGuard into the customer's equipment up to the maximum time of two (2) hours if such work is done by a Cummins Onan Distributor or other service representative designated by Cummins Power Generation.

The cost of maintenance items such as, oil filter, air filter, and hoses will be paid for the period of time up to the first scheduled maintenance interval.

Owner's Responsibilities

The owner is obligated to operate and maintain the product in accordance with the recommendations published by CPG in the Operator's Manual. The owner is responsible for the costs associated with such maintenance and any adjustments that may be required.

All claims must be brought to the attention of a CPG Distributor or its designated service representative within a reasonable time, preferably within 30 days after discovery that the product fails to meet this warranty.

The owner is responsible for payment of any of the following expenses that might be incurred as a result of a failure under the terms of this warranty:

Rental equipment used to replace the equipment being repaired

Telephone or other communication expenses

Lodging, meals and travel expenses

The premium costs for overtime labor requested by the owner

The cost of air freight or other extraordinary expenses for shipment of parts over and above premium surface transportation.

Coverage Description

CPG is not responsible for repair of the product that is required because of normal wear, accident, misuse, abuse, improper installation, lack of maintenance, unauthorized modifications, the use of add-on or modified parts, improper storage, negligence, improper or contaminated fuel.

Normal Wear

This warranty will not cover repair where normal use has exhausted the life of a part, engine or compressor. Engines and compressors, like all mechanical devices, need periodic parts replacement and service to perform well. It should be remembered that the service life of any product is dependent on the care it receives and the conditions under which it has to operate. Some applications are very dusty or dirty, which can cause excessive wear. Such wear, when caused by environment such as dirt, dust or other abrasive material that has entered the engine because of improper maintenance, or harmful exposure due to poor installation location is not covered by Warranty.

Miscellaneous Damages

In no event is CPG liable for incidental or consequential damages. Note, some states or provinces do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation or exclusion may not apply to you.

Other Warranties

There is no other express warranty. Implied warranties, including merchantability and fitness for a particular purpose, are limited to periods of warranty set forth above. To the extent permitted by law, any and all implied warranties are excluded. Note, some states and provinces do not allow limitations on how long an implied warranty lasts, so the above limitations may not apply to you.

No person is authorized to give any other warranties or to assume any other liabilities on behalf of CPG, unless made or assumed in writing by an officer of CPG. No person is authorized to give any warranties or assume any other liability on behalf of seller unless made or assumed in writing by seller.

This warranty gives you specific legal rights, and you may also have other rights that vary from state to state or province.

Cummins Power Generation® Federal Emissions Control

GENERAL EMISSIONS WARRANTY COVERAGE

Cummins Power Generation warrants to the ultimate purchaser and each subsequent purchaser that the new equipment is:

Designed, built, and equipped so as to conform with all applicable regulations; and free from defects in materials and workmanship that cause the failure of a warranted part to be identical in all material respects to that part as described in Cummins Power Generation application for certification.

The warranty period begins on the date the new equipment is delivered to an ultimate purchaser or first placed into service. The warranty period is two years.

Subject to certain conditions and exclusions as stated below, the warranty on emission-related parts is as follows:

- (1) Any warranted part that is not scheduled for replacement as required maintenance in the written instructions supplied, is warranted for the warranty period stated above. If the part fails during the period of warranty coverage, the part will be repaired or replaced by Cummins Power Generation according to subsection (4) below. Any such part repaired or replaced under warranty will be warranted for the remaining warranty period.
- (2) Any warranted part that is scheduled only for regular inspection in the written instructions supplied is warranted for the warranty period stated above. Any such part repaired or replaced under warranty will be warranted for the remaining warranty period.

- (3) Any warranted part that is scheduled for replacement as required maintenance in the written instructions supplied is warranted for the period of time before the first scheduled replacement date for that part. If the part fails before the first scheduled replacement, the part will be repaired or replaced by Cummins Power Generation according to subsection (4) below. Any such part repaired or replaced under warranty will be warranted for the remainder of the period prior to the first scheduled replacement point for the part.
- (4) Repair or replacement of any warranted part under the warranty provisions herein must be performed at a warranty station at no charge to the owner.
- (5) Notwithstanding the provision herein, warranty services or repairs will be provided at all of our distribution centers that are authorized to service the subject engines or equipment.
- (6) The new equipment owner will not be charged for diagnostic labor that is directly associated with diagnosis of a defective, emission-related warranted part, provided that such diagnostic work is performed at a warranty station.
- (7) Cummins Power Generation is liable for damages to other engine or equipment components proximately caused by a failure under warranty of any warranted part.
- (8) Throughout the new equipment warranty period stated above, Cummins Power Generation will maintain a supply of warranted parts sufficient to meet the expected demand for such parts.

- (9) Any replacement part may be used in the performance of any warranty maintenance or repairs and must be provided without charge to the owner. Such use will not reduce the warranty obligations of Cummins Power Generation.
- (10) Add-on or modified parts that are not exempted by the Air Resources Board may not be used. The use of any non-exempted add-on or modified parts by the ultimate purchaser will be grounds for disallowing a warranty claims. Cummins Power Generation will not be liable to warrant failures of warranted parts caused by the use of a non-exempted add-on or modified parts.

WARRANTED PARTS:

The repair or replacement of any warranted part otherwise eligible for warranty coverage may be excluded from such warranty coverage if Cummins Power Generation demonstrates that the (new equipment) has been abused, neglected, or improperly maintained, and that such abuse, neglect, or improper maintenance was the direct cause of the need for repair or replacement of the part. That notwithstanding, any adjustment of a component that has a factory installed, and properly operating, adjustment limiting device is still eligible for warranty coverage. The following emission warranty parts list is included new equipment:

- (1) Fuel Line
- (2) Fuel Line Fittings
- (3) Clamps
- (4) Control Valves
- (5) Purge Valves
- (6) Vapor Hoses
- (7) Carbon Canister
- (8) Canister Mounting Brackets
- (9) Carburetor Purge Port Tube
- (10) Metal Fuel Tank
- (11) Fuel Tank Cap
- (12) Carburetor or Fuel Injection System and Pressure Regulator
- (13) Mixer and Regulator System
- (14) Electronic Ignition System
- (15) Air Filter

Warranted Parts Continued...

- (16) Spark Plugs
- (17) Air Injection System
- (18) Catalyst Muffler
- (19) Miscellaneous Belts, Hoses and Connectors used in the above assemblies.

This is the exclusive warranty on covered parts. There are no other warranties, express or implied, including no warranties of merchantability and fitness for a particular purpose.

If you have any questions regarding your warranty rights and responsibilities, you should contact your Cummins Onan distributor by calling 1-800-888-6626.

CALIFORNIA EMISSION CONTROL WARRANTY STATEMENT YOUR WARRANTY RIGHTS AND OBLIGATIONS

The California Air Resources Board and Cummins Power Generation are pleased to explain the emissions control system warranty on your 2008 and later small off-road engine (SORE) installed in your generator set. In California, new SORE must be designed, built and equipped to meet the State's stringent anti-smog standards. Cummins Power Generation must warrant the ECS on your SORE for the period of time listed below provided there has been no abuse, neglect or improper maintenance of your SORE.

Your Emissions Control System may include parts such as the carburetor, fuel-injection system, the ignition system, catalytic converter, fuel tanks, fuel lines, fuel caps, valves, canisters, filters, vapor hoses, clamps, connectors, and other associated emission-related components.

Where a warrantable condition exists, Cummins Power Generation will repair your SORE at no cost to you including diagnosis, parts and labor.

MANUFACTURER'S WARRANTY COVERAGE:

This emissions control system is warranted for two years. If any emission-related part on your equipment is defective, the part will be repaired or replaced by Cummins Power Generation.

OWNER'S WARRANTY RESPONSIBILITIES:

As the SORE owner, you are responsible for performance of the required maintenance listed in your owner's manual. Cummins Power Generation recommends that you

retain all receipts covering maintenance on your SORE, but Cummins Power Generation cannot deny warranty solely for the lack of receipts.

As the SORE owner, you should however be aware that Cummins Power Generation may deny you warranty coverage if your SORE or a part has failed due to abuse, neglect, or improper maintenance or unapproved modifications.

You are responsible for presenting your SORE to Cummins Power Generation's distribution center or service center as soon as the problem exists. The warranty repairs should be completed in a reasonable amount of time, not to exceed 30 days. If you have a question regarding your warranty coverage, you should contact Cummins Onan distributor by calling 1-800-888-6626

DEFECTS WARRANTY REQUIREMENTS:

The warranty period begins on the date the engine or equipment is delivered to an ultimate purchaser.

GENERAL EMISSIONS WARRANTY COVERAGE:

Cummins Power Generation warrants to the ultimate purchaser and each subsequent purchaser that the new equipment is:

Designed, built, and equipped so as to conform with all applicable regulations; and free from defects in materials and workmanship that cause the failure of a warranted part to be identical in all material

respects to that part as described in Cummins Power Generation application for certification.

The warranty period begins on the date the new equipment is delivered to an ultimate purchaser or first placed into service. The warranty period is two years.

The warranty on emission related parts will be interpreted as follows:

- (1) Any warranted part that is not scheduled for replacement as required maintenance in the written instructions supplied, is warranted for the warranty period stated above. If the part fails during the period of warranty coverage, the part will be repaired or replaced by Cummins Power Generation according to subsection (4) below. Any such part repaired or replaced under warranty will be warranted for the remaining warranty period.
- (2) Any warranted part that is scheduled only for regular inspection in the written instructions supplied is warranted for the warranty period stated above. Any such part repaired or replaced under warranty will be warranted for the remaining warranty period.
- (3) Any warranted part that is scheduled for replacement as required maintenance in the written instructions supplied is warranted for the period of time before the first scheduled replacement date for that part. If the part fails before the first scheduled replacement, the part will be repaired or replaced by Cummins Power Generation according to subsection (4) below. Any such part repaired or replaced under warranty will be warranted for the remainder of the period prior to the first scheduled replacement point for the part.
- (4) Repair or replacement of any warranted part under the warranty provisions herein must be performed at a warranty station at no charge to the owner.

- (5) Notwithstanding the provision herein, warranty services or repairs will be provided at all of our distribution centers that are authorized to service the subject engines or equipment.
- (6) The new equipment owner will not be charged for diagnostic labor that is directly associated with diagnosis of a defective, emission-related warranted part, provided that such diagnostic work is performed at a warranty station.
- (7) Cummins Power Generation is liable for damages to other engine or equipment components proximately caused by a failure under warranty of any warranted part.
- (8) Throughout the new equipment warranty period stated above, Cummins Power Generation will maintain a supply of warranted parts sufficient to meet the expected demand for such parts.
- (8) Any replacement part may be used in the performance of any warranty maintenance or repairs and must be provided without charge to the owner. Such use will not reduce the warranty obligations of Cummins Power Generation.
- (10) Add-on or modified parts that are not exempted by the Air Resources Board may not be used. The use of any non-exempted add-on or modified parts by the ultimate purchaser will be grounds for disallowing a warranty claims. Cummins Power Generation will not be liable to warrant failures of warranted parts caused by the use of a non-exempted add-on or modified parts.
- (11) The manufacturer issuing the warranty shall provide any documents that describe that

manufacturer's warranty procedures or policies within five working days of request by the Air Resources Board.

WARRANTED PARTS:

The repair or replacement of any warranted part otherwise eligible for warranty coverage may be excluded from such warranty coverage if Cummins Power Generation demonstrates that the (new equipment) has been abused, neglected, or improperly maintained, and that such abuse, neglect, or improper maintenance was the direct cause of the need for repair or replacement of the part. That notwithstanding, any adjustment of a component that has a factory installed, and properly operating, adjustment limiting device is still eligible for warranty coverage. The following emission warranty parts list is included new equipment:

- (1) Fuel Line
- (2) Fuel Line Fittings
- (3) Clamps
- (4) Control Valves
- (5) Purge Valves
- (6) Vapor Hoses
- (7) Carbon Canister
- (8) Canister Mounting Brackets
- (9) Carburetor Purge Port Tube
- (10) Metal Fuel Tank
- (11) Fuel Tank Cap
- (12) Carburetor or fuel injection system and fuel pressure regulator
- (13) Mixer and regulator system
- (14) Electronic Ignition System
- (15) Air Filter
- (16) Spark Plugs
- (17) Air Injection System
- (18) Catalyst Muffler
- (19) Miscellaneous Belts, Hoses and Connectors used in the above assemblies.

This is the exclusive warranty on covered parts. There are no other warranties, express or implied, including no warranties of merchantability and fitness for a particular purpose.

CALIFORNIA EMISSION CONTROL WARRANTY STATEMENT YOUR WARRANTY RIGHTS AND OBLIGATIONS

The California Air Resources Board and Cummins Power Generation are pleased to explain the emissions control system warranty on your 2008 and later small off-road engine (SORE) installed in your generator set. In California, new SORE must be designed, built and equipped to meet the State's stringent anti-smog standards. Cummins Power Generation must warrant the ECS on your SORE for the period of time listed below provided there has been no abuse, neglect or improper maintenance of your SORE.

Your Emissions Control System may include parts such as the carburetor, fuel-injection system, the ignition system, catalytic converter, fuel tanks, fuel lines, fuel caps, valves, canisters, filters, vapor hoses, clamps, connectors, and other associated emission-related components.

Where a warrantable condition exists, Cummins Power Generation will repair your SORE at no cost to you including diagnosis, parts and labor.

MANUFACTURER'S WARRANTY COVERAGE:

This emissions control system is warranted for two years. If any emission-related part on your equipment is defective, the part will be repaired or replaced by Cummins Power Generation.

OWNER'S WARRANTY RESPONSIBILITIES:

As the SORE owner, you are responsible for performance of the required maintenance listed in your owner's manual. Cummins Power Generation recommends that you retain all receipts covering maintenance on your SORE, but Cummins Power Generation cannot deny warranty solely for the lack of receipts.

As the SORE owner, you should however be aware that Cummins Power Generation may deny you warranty coverage if your SORE or a part has failed due to abuse, neglect, or improper maintenance or unapproved modifications.

You are responsible for presenting your SORE to Cummins Power Generation's distribution center or service center as soon as the problem exists. The warranty repairs should be completed in a reasonable amount of time, not to exceed 30 days. If you have a question regarding your warranty coverage, you should contact Cummins Onan distributor by calling 1-800-888-6626

DEFECTS WARRANTY REQUIREMENTS:

The warranty period begins on the date the engine or equipment is delivered to an ultimate purchaser.

GENERAL EMISSIONS WARRANTY COVERAGE:

Cummins Power Generation warrants to the ultimate purchaser and each subsequent purchaser that the new equipment is:

Designed, built, and equipped so as to conform with all applicable regulations; and free from defects in materials and workmanship that cause the failure of a warranted part to be identical in all material respects to that part as described in Cummins Power Generation application for certification.

The warranty period begins on the date the new equipment is delivered to an ultimate purchaser or first placed into service. The warranty period is two years.

The warranty on emission related parts will be interpreted as follows:

- (1) Any warranted part that is not scheduled for replacement as required maintenance in the written instructions supplied, is warranted for the warranty period stated above. If the part fails during the period of warranty coverage, the part will be repaired or replaced by Cummins Power Generation according to subsection (4) below. Any such part repaired or replaced under warranty will be warranted for the remaining warranty period.
- (2) Any warranted part that is scheduled only for regular inspection in the written instructions supplied is warranted for the warranty period stated above. Any such part repaired or replaced under warranty will be warranted for the remaining warranty period.
- (3) Any warranted part that is scheduled for replacement as required maintenance in the written instructions supplied is warranted for the period of time before the first scheduled replacement date for that part. If the part fails before the first scheduled replacement, the part will be repaired or replaced by Cummins Power Generation according to subsection (4) below. Any such part repaired or replaced under warranty will be warranted for the remainder of the period prior to the first scheduled replacement point for the part.
- (4) Repair or replacement of any warranted part under the warranty provisions herein must be performed at a warranty station at no charge to the owner.
- (5) Notwithstanding the provision herein, warranty services or repairs will be provided at all of our distribution centers that are authorized to service the subject engines or equipment.
- (6) The new equipment owner will not be charged for diagnostic labor that is directly associated with diagnosis of a defective, emission-related warranted part, provided that such diagnostic work is performed at a warranty station.
- (7) Cummins Power Generation is liable for damages to other engine or equipment components proximately caused by a failure under warranty of any warranted part.

- (8) Throughout the new equipment warranty period stated above, Cummins Power Generation will maintain a supply of warranted parts sufficient to meet the expected demand for such parts.
- (9) Any replacement part may be used in the performance of any warranty maintenance or repairs and must be provided without charge to the owner. Such use will not reduce the warranty obligations of Cummins Power Generation.
- (10) Add-on or modified parts that are not exempted by the Air Resources Board may not be used. The use of any non-exempted add-on or modified parts by the ultimate purchaser will be grounds for disallowing a warranty claims. Cummins Power Generation will not be liable to warrant failures of warranted parts caused by the use of a non-exempted add-on or modified parts.
- (11) The manufacturer issuing the warranty shall provide any documents that describe that manufacturer's warranty procedures or policies within five working days of request by the Air Resources Board.

WARRANTED PARTS:

The repair or replacement of any warranted part otherwise eligible for warranty coverage may be excluded from such warranty coverage if Cummins Power Generation demonstrates that the (new equipment) has been abused, neglected, or improperly maintained, and that such abuse, neglect, or improper maintenance was the direct cause of the need for repair or replacement of the part. That notwithstanding, any adjustment of a component that has a factory installed, and properly operating, adjustment limiting device is still eligible for warranty coverage. The following emission warranty parts list is included new equipment:

- (1) Fuel Line
- (2) Fuel Line Fittings
- (3) Clamps
- (4) Control Valves
- (5) Purge Valves
- (6) Vapor Hoses
- (7) Carbon Canister
- (8) Canister Mounting Brackets
- (9) Carburetor Purge Port Tube
- (10) Metal Fuel Tank
- (11) Fuel Tank Cap
- (12) Carburetor or fuel injection system and fuel pressure regulator
- (13) Mixer and regulator system
- (14) Electronic Ignition System
- (15) Air Filter
- (16) Spark Plugs
- (17) Miscellaneous belts and connectors used in above assemblies

This is the exclusive warranty on covered parts. There are no other warranties, express or implied, including no warranties of merchantability and fitness for a particular purpose.

Limited Warranty

Commercial Generating Set

This limited Increased Base warranty applies to all Cummins Power Generation® branded commercial Low Range generating sets C8 to C38D5 plus C12 to C35D6 and associated accessories on or after 25th August 2012 (hereinafter referred to as "Product").

This warranty covers any failures of the Product, under normal use and service, which result from a defect in material or factory workmanship.

Warranty Period:

The warranty start date is the date of initial start up, first rental, demonstration or 18 months after factory ship date, whichever is sooner. See table for details.

Prime Power (PRP) is defined as being the maximum power which a generating set is capable of delivering continuously whilst supplying a variable electrical load when operated for an unlimited number of hours per year. The permissible average power output over 24 hours of operation shall not exceed 70% of the PRP. For applications requiring permissible average output higher than stated, a COP rating should be used.

Emergency Standby Power (ESP) is defined as the maximum power available during a variable electrical power sequence, under the stated operating conditions, for which a generating set is capable of delivering in the event of a utility power outage or under test conditions for up to 200 hours of operation per year. The permissible average power output over 24 hours of operation shall not exceed 70% of the ESP.

**X Series Powered Base Warranty Coverage
Duration
(Whichever occurs first)**

Rating	Months	Max. Hours
PRP	20	4,000
PRP	12	Unlimited
ESP	40	800

Cummins Power Generation®

Responsibilities:

In the event of a failure of the Product during the warranty period due to defects in material or workmanship, Cummins Power Generation® will only be responsible for the following costs:

- All parts and labor required to repair the Product.
- Reasonable travel expenses to and from the Product site location.
- Maintenance items that are contaminated or damaged by a warrantable failure.

Owner Responsibilities:

The owner will be responsible for the following:

- Notifying Cummins Power Generation® distributor or dealer within 30 days of the discovery of failure.
- Installing, operating, commissioning and maintaining the Product in accordance with Cummins Power Generation®'s published policies and guidelines.
- Providing evidence for date of commissioning.
- Providing sufficient access to and reasonable ability to remove the Product from the installation in the event of a warrantable failure.

In addition, the owner will be responsible for:

- Incremental costs and expenses associated with Product removal and reinstallation resulting from non-standard installations.
- Costs associated with rental of generating sets used to replace the Product being repaired.
- Costs associated with labor overtime and premium shipping requested by the owner.
- All downtime expenses, fines, all applicable taxes, and other losses resulting from a warrantable failure.

Limitations:

This limited warranty does not cover Product failures resulting from:

- Inappropriate use relative to designated power rating.
- Inappropriate use relative to application guidelines.
- Failures due to normal wear, corrosion, varnished fuel system parts, lack of reasonable and necessary maintenance, unauthorized modifications and/or repair, and use of add-on or modified parts.
- Improper and/or unauthorized installation.
- Owner's or operator's negligence, accidents or misuse.
- Noncompliance with any Cummins Power Generation® published guideline or policy.
- Use of improper or contaminated fuels, coolants or lubricants.
- Improper storage before and after commissioning.
- Owner's delay in making Product available after notification of potential Product problem.
- Replacement parts and accessories not authorized by Cummins Power Generation®.
- Use of Battle Short Mode
- Owner or operator abuse or neglect such as: operation without adequate coolant or lubricants; overfueling; overspeeding; lack of maintenance to lubricating, cooling or air intake systems; late servicing and maintenance; improper storage, starting, warm-up, run-in or shutdown practices, or for progressive damage resulting from a defective shutdown or warning device.
- Damage to parts, fixtures, housings, attachments and accessory items that are not part of the generating set.

This limited warranty is not valid for USA, Canada and India territories

This limited warranty does not cover costs resulting from:

- Difficulty in gaining access to the Product.
- Damage to customer property.
- Repair of cosmetic damage to enclosures.

Please contact your local Cummins Power Generation® Distributor for clarification concerning these limitations.

CUMMINS POWER GENERATION® RIGHT TO FAILED COMPONENTS:

Failed components claimed under warranty remain the property of Cummins Power Generation®. Cummins Power Generation® has the right to reclaim any failed component that has been replaced under warranty.

Extended Warranty:

Cummins Power Generation® offers several levels of Extended Warranty Coverage. Please contact your local Cummins Power Generation® Distributor for details.

Limited Warranty

Global G Drive CoolPac

This limited warranty applies to all Cummins Power Generation® branded G Drive CoolPac and associated accessories (hereinafter referred to as "Product").

This warranty covers any failures of the Product, under normal use and service, which result from a defect in material or factory workmanship.

Warranty Period:

The warranty start date[†] is the date of initial start up, first rental, demonstration or 15 months after factory ship date, whichever is sooner. See table for details.

Continuous Power (COP) is defined as being the maximum power which the Product is capable of delivering continuously whilst supplying a constant electrical load when operated for an unlimited number of hours per year. No overload capability is available for this rating.

Prime Power (PRP) is defined as being the maximum power which the Product is capable of delivering continuously whilst supplying a variable electrical load when operated for an unlimited number of hours per year. The permissible average power output over 24 hours of operation shall not exceed 70% of the PRP. For applications requiring permissible average output higher than stated, a COP rating should be used.

Limited-Time Running Power (LTP) is defined as the maximum power available, under the agreed operating conditions, for which the Product is capable of delivering for up to 500 hours of operation per year.

Emergency Standby Power (ESP) is defined as the maximum power available during a variable electrical power sequence, under the stated operating conditions, for which the Product is capable of delivering in the event of a utility power outage or under test conditions for up to 200 hours of operation per year. The permissible average power output over 24 hours of operation shall not exceed 70% of the ESP.

Base Warranty Coverage Duration (Whichever occurs first)

Rating	Months	Max. Hours
COP	12	Unlimited
PRP	12	Unlimited
LTP	12	500 hrs
ESP	24	400 hrs

[†] Warranty start date for designated rental and oil and gas model Products is determined to be date of receipt of Product by the end customer.

Cummins Power Generation®

Responsibilities:

In the event of a failure of the Product during the warranty period due to defects in material or workmanship, Cummins Power Generation® will only be responsible for the following costs:

- All parts and labor required to repair the Product.
- Reasonable travel expenses to and from the Product site location.
- Maintenance items that are contaminated or damaged by a warrantable failure.

Owner Responsibilities:

The owner will be responsible for the following:

- Notifying Cummins Power Generation® distributor or dealer within 30 days of the discovery of failure.
- Installing, operating, commissioning and maintaining the Product in accordance with Cummins Power Generation®'s published policies and guidelines.
- Providing evidence for date of commissioning.
- Providing sufficient access to and reasonable ability to remove the Product from the installation in the event of a warrantable failure.

In addition, the owner will be responsible for:

- Incremental costs and expenses associated with Product removal and reinstallation resulting from non-standard installations.
- Costs associated with rental of generating sets used to replace the Product being repaired.

- Costs associated with labor overtime and premium shipping requested by the owner.
- All downtime expenses, fines, all applicable taxes, and other losses resulting from a warrantable failure.

Limitations:

This limited warranty does not cover Product failures resulting from:

- Inappropriate use relative to designated power rating.
- Inappropriate use relative to application guidelines.
- Normal wear and tear.
- Improper and/or unauthorized installation.
- Negligence, accidents or misuse.
- Lack of maintenance or unauthorized repair.
- Noncompliance with any Cummins Power Generation® published guideline or policy.
- Use of contaminated fuels, coolants or lubricants.
- Use of unapproved fuel, coolant, lubricants or additives
- Improper storage before and after commissioning.
- Owner's delay in making Product available after notification of potential Product problem.
- Replacement parts and accessories not authorized by Cummins Power Generation®.
- Use of Battle Short Mode.
- Owner or operator abuse or neglect such as: operation without adequate coolant or lubricants; overfueling; overspeeding; lack of maintenance to lubricating, cooling or air intake systems; late servicing and maintenance; improper storage, starting, warm-up, run-in or shutdown practices, or for progressive damage resulting from a defective shutdown or warning device.
- Damage to parts, fixtures, housings, attachments and accessory items that are not part of the Cummins supplied product.
- This warranty does not apply to accessories not supplied by CPG which bear the name of another company

This limited warranty does not cover costs resulting from:

- Difficulty in gaining access to the Product.
- Damage to customer property.

Please contact your local Cummins Power Generation® Distributor for clarification concerning these limitations.

Manufacturer's Limited Warranty

Onan extends to the owner the following worldwide warranty covering goods manufactured or supplied by Onan, subject to the qualifications indicated.

THERE IS NO OTHER EXPRESS WARRANTY.

IN NO EVENT IS ONAN LIABLE FOR INCIDENTAL OR CONSEQUENTIAL DAMAGES.

IMPLIED WARRANTIES, INCLUDING MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, ARE LIMITED TO PERIODS OF WARRANTY SET FORTH BELOW. TO THE EXTENT PERMITTED BY LAW, ANY AND ALL IMPLIED WARRANTIES ARE EXCLUDED.

NOTE: Some states/provinces/countries do not allow limitations on how long an implied warranty lasts, so the above limitations may not apply in every instance, and the user may also have other rights which vary from state to state or province.

No person is authorized to give any other warranties or to assume any other liabilities on Onan's behalf, unless made or assumed in writing by an officer of Onan, and no person is authorized to give any warranties or assume any other liability on behalf of Seller unless made or assumed in writing by Seller.

1. Onan warrants for the periods set forth below that goods manufactured or supplied by Onan will be free from defects in material and workmanship provided such goods are installed, operated, and maintained in accordance with Onan's written instructions.
 - A. Onan's sole liability and Purchaser's sole remedy for the repair of goods under this warranty and for any and all other claims arising out of the purchase or use of the goods, including negligence on the part of the manufacturer, and damages to other generator set components caused by the failure of a warranted part still under warranty, shall be limited repair or replacement, at Onan's option, of parts that present a defect in material or workmanship, provided that the product or parts are returned to Onan's factory at 1400 73rd Avenue NE, Minneapolis, Minnesota 55432, or to an Onan authorized Distributor or its designated service representative, transportation prepaid.
 - B. Non-genuine Onan parts used in maintenance or repair that cause or substantially contribute to a failure, that failure, may not be covered by this warranty. An Onan authorized Distributor or its designated service representative authorized to perform warranty repairs will use only genuine Onan parts, unless Onan gives express written authorization. Such parts will be provided at no charge to the owner.
2. Goods designed for and used in below deck marine applications are warranted for a period of five (5) years or two thousand (2,000) hours, whichever occurs first, from date of delivery to the first retail purchaser. For demonstration boats, coverage commences at fifty (50) hours or date of delivery to the first retail purchaser, whichever occurs first. Parts, labor, including diagnostic labor, limited travel, and removal and reinstallation are covered for the first and second years or two thousand (2,000) hours whichever occurs first, on warrantable repairs. Parts, labor, including diagnostic labor, limited travel, and removal and reinstallation are covered on selected power train and generator parts for the remaining years or two thousand (2,000) hours, whichever occurs first, on warrantable repairs. Selected power train and generator parts covered after two (2) years and up to five (5) years or two thousand (2,000) hours whichever occurs first are:
 - A. Selected power train parts: cylinder block, cylinder heads, crankshaft, camshaft, balance shafts, pistons, rings, valves, valve lifters, manifolds and major castings.
 - B. Selected generator parts: main stator, main rotor, excitation stator, and excitation rotor.

Goods designed for use in above deck installations on pontoon houseboats are warranted for a period of two (2) years or two thousand (2,000) hours, whichever occurs first, from date of delivery to the first retail purchaser. For demonstration boats, coverage commences at fifty (50) hours or date of delivery to the first retail purchaser, whichever occurs first. Parts, labor, including diagnostic labor, limited travel and removal and reinstallation are covered for two (2) years or two thousand (2,000) hours, whichever occurs first, on warrantable repairs.

Goods designed thirty (30) kilowatts and above used in commercial applications, defined as revenue producing, are warranted for a period of one (1) year or unlimited hours, whichever occurs first, from date of delivery to the first retail purchaser. Parts, labor, including diagnostic labor, limited travel, and removal and reinstallation are covered for the one (1) year or unlimited hours whichever occurs first, on warrantable failures.

Maintenance items such as spark plugs, glow plugs, oil filter, fuel filter, air filter, belts and hoses will be covered for the period of time up to the first scheduled replacement or service interval for each item. Raw water pump impellers may be covered, at Onan's option, if due to an identified cause from a defect in materials or workmanship.

Any part repaired or replaced under said warranty assumes the remainder of that replaced parts warranty coverage period.

After warranty coverage begins with the first retail purchaser or fifty (50) hour demonstration, the coverage is completely transferable to subsequent owners at no charge and no requirement to reregister.

3. Purchased, spare, repair or replacement parts are warranted for ninety (90) days from date of purchase, excluding labor and travel expenses.
4. Onan will pay the following stated labor, at straight time only, for repairs of warrantable failures requiring removal and reinstallation of an Onan generator set.
 - Up to a maximum of four (4) hours for all single and two cylinder engine powered marine generator sets installed below-deck.
 - Up to eight (8) hours for all three, four, five and six cylinder engine powered marine generator sets installed below-deck.
 - Up to one (1) hour for generator sets installed above deck.
5. Onan will pay the following stated travel and mileage for repairs of warrantable failures on an Onan generator set.
 - Travel time up to six and one-half (6.5) hours and mileage cost up to two hundred fifty (250) miles for related warranty repairs.
6. All claims must be brought to the attention of Onan or an Onan authorized Distributor or its designated service representative within thirty (30) days after a discovery of defect in materials or workmanship of goods covered under this warranty
7. THIS WARRANTY SHALL NOT APPLY TO:
 - A. Cost of maintenance, adjustments, installation and start-up.
 - B. Failures due to water intrusion, improper installation, normal wear, lack of reasonable and necessary maintenance, accident, misuse, abuse, negligence, unauthorized modifications, the use of add-on or modified parts, improper storage, and improper or contaminated fuel.
 - C. Products which are altered or modified in a manner not authorized by manufacturer in writing.
 - D. Failure of goods caused by defects in the system or application in which the goods are installed.
 - E. Living, travel, or communication expenses.
 - F. Rental equipment used while warranty repairs are being performed.
 - G. Overtime labor
 - H. Starting batteries
 - I. The cost of airfreight or other extraordinary expenses for shipment of parts over and above premium surface transportation.
 - J. Cost of repairs performed by a non-authorized Onan service representative, unless express written pre-authorization is given by Onan or an Onan authorized Distributor.
8. Optional extended warranty coverage may be available. Coverage must be purchased within the first year after the date of delivery to the first retail purchaser. Contact your Onan Distributor for details.
9. If you have any questions regarding your warranty rights and responsibilities, contact your Onan Distributor by calling 1-800-888-ONAN (6626) and select **OPTION #1** in the U.S. or Canada or refer to the F-118 Worldwide Distributor Sales and Service Directory; or visit our Website at www.onan.com.

AB-2019-02 Cummins® Onan® Marine Generators Manufacturer's Limited Warranty

BASIC COVERAGE

Cummins Power Generation (CPG), manufacturer of Cummins Onan Marine Generators, extends to the owner the following worldwide warranty covering goods manufactured or supplied by Cummins Power Generation, subject to the qualifications indicated.

Cummins Power Generation's sole liability and Purchaser's sole remedy for the repair of goods under this warranty and for any and all other claims arising out of the purchase or use of the goods, including negligence on the part of the manufacturer, and damages to other generator set components caused by the failure of a warranted part still under warranty, shall be limited repair or replacement, at Cummins Power Generation's option, of parts that present a defect in material or workmanship, provided that the product or parts are returned to Cummins Power Generation's factory at 1400 73rd Avenue NE, Minneapolis, Minnesota 55432, or to a Cummins Onan authorized Distributor or its designated service representative, transportation prepaid.

Non-genuine CPG parts used in maintenance or repair that cause or substantially contribute to a failure, that failure, may not be covered by this warranty. A Cummins Onan authorized Distributor or its designated service representative authorized to perform warranty repairs will use only genuine CPG parts, unless Cummins Power Generation gives express written authorization. Such parts will be provided at no charge to the owner

Coverage Period

Cummins Power Generation warrants for the periods set forth below that goods manufactured or supplied by Cummins Power Generation will be free from defects in material and workmanship provided such goods are installed, operated, and maintained in accordance with Cummins Power Generation's written instructions.

1. Goods designed for and used in below deck marine applications are warranted for a period of five (5) years or two thousand (2,000) hours, whichever occurs first, from date of delivery to the first retail purchaser. For demonstration boats, coverage commences at fifty (50) hours or date of delivery to the first retail purchaser, whichever occurs first. Parts, labor, including diagnostic labor, limited travel, and removal and reinstallation are covered for the first and second years or two thousand (2,000) hours whichever occurs first, on warrantable repairs. After two (2) years and up to five (5) years or two thousand (2,000) hours whichever occurs first, parts, labor, including diagnostic labor, limited travel, and removal and reinstallation are covered only on selected power train and generator parts on warrantable repairs. Selected power train and generator parts are:
 - i. Selected power train parts: cylinder block, cylinder heads, crankshaft, camshaft, balance shafts, pistons, rings, valves, valve lifters, manifolds and major castings.
 - ii. Selected generator parts: main stator, main rotor, excitation stator, and excitation rotor.
2. Goods designed for use in above deck installations on pontoon houseboats are warranted for a period of two (2) years or two thousand (2,000) hours, whichever occurs first, from date of delivery to the first retail purchaser. For demonstration boats, coverage commences at fifty (50) hours or date of delivery to the first retail purchaser, whichever occurs first. Parts, labor, including diagnostic labor, limited travel and removal and reinstallation are covered for two (2) years or two thousand (2,000) hours, whichever occurs first, on warrantable repairs.
3. After warranty coverage begins with the first retail purchaser or fifty (50) hour demonstration, the coverage is completely transferable to subsequent owners at no charge and no requirement to reregister.
4. Maintenance items such as spark plugs, glow plugs, oil filter, fuel filter, air filter, belts and hoses will be covered for the period of time up to the first scheduled replacement or service interval for each item. Raw water pump impellers may be covered, at Cummins Power Generation's option, if due to an identified cause from a defect in materials or workmanship.
5. Any part repaired or replaced under said warranty assumes the remainder of that replaced parts warranty coverage period.
6. Purchased, spare, repair or replacement parts are warranted for ninety (90) days from date of purchase, excluding labor and travel expenses.

Coverage Description

1. Cummins Power Generation will pay the following stated labor, at straight time only, for repairs of warrantable failures requiring removal and reinstallation of a CPG generator set.

Continued

-
- A. Cummins Power Generation will pay published Standard Repair Time (SRT) for removal and reinstallation for repairs of warrantable failures requiring removal and reinstallation of a CPG generator set. The SRT is based on the generator set model.
 2. Cummins Power Generation will pay travel and mileage for repairs of warrantable failures on a CPG generator set: travel time up to six and one-half (6.5) hours and mileage cost up to two hundred fifty (250) miles for related warranty repairs.
 3. All claims must be brought to the attention of Cummins Power Generation or a CPG Authorized Distributor or its designated service representative within thirty (30) days after a discovery of defect in materials or workmanship of goods covered under this warranty
 4. This warranty does not apply to the following:
 - A. Cost of maintenance, adjustments, installation and start-up.
 - B. Failures due to water intrusion, improper installation, normal wear, lack of reasonable and necessary maintenance, accident, misuse, abuse, negligence, unauthorized modifications, the use of add-on or modified parts, improper storage, and improper or contaminated fuel.
 - C. Products which are altered or modified in a manner not authorized by manufacturer in writing.
 - D. Failure of goods caused by defects in the system or application in which the goods are installed.
 - E. Living, travel, or communication expenses.
 - F. Rental equipment used while warranty repairs are being performed.
 - G. Overtime labor
 - H. Starting batteries
 - I. The cost of airfreight or other extraordinary expenses for shipment of parts over and above premium surface transportation.
 - J. Cost of repairs performed by a non-authorized CPG service representative, unless express written pre-authorization is given by Cummins Power Generation or a CPG authorized Distributor.

Other Warranties

There is no other express warranty. Implied warranties, including merchantability and fitness for a particular purpose, are limited to periods of warranty set forth below. To the extent permitted by law, any and all implied warranties are excluded. Note, some states, provinces, or countries do not allow limitations on how long an implied warranty lasts, so the above limitations may not apply in every instance, and the user may also have other rights which vary from state to state or province.

No person is authorized to give any other warranties or to assume any other liabilities on Cummins Power Generation's behalf, unless made or assumed in writing by an officer of Cummins Power Generation. No person is authorized to give any warranties or assume any other liability on behalf of the seller unless made or assumed in writing by the seller.

Miscellaneous Damages

In no event is Cummins Power Generation liable for incidental or consequential damages.

Extended Warranty

Optional extended warranty coverage may be available. Coverage must be purchased within the first year after the date of delivery to the first retail purchaser. Contact your Cummins Onan Distributor/Dealer for details at.....

Limited Warranty

Marine Generator Sets

This limited warranty applies to all Cummins Onan® branded Marine generating sets and associated accessories (hereinafter referred to as "Product").

This warranty covers any failures of the Product, under normal use and service, which result from a defect in material or factory workmanship.

Warranty Period:

The warranty start date is the date of sale of Product to the first retail purchaser (End User) by Cummins Power Generation® or after 100 hours of demonstration. The coverage duration is 5 years from warranty start date or 2,000 hours, whichever occurs first.

Cummins Power Generation® Responsibilities:

In the event of a failure of the Product during the warranty period due to defects in material or workmanship, Cummins Power Generation® will only be responsible for the following costs:

Years 1 & 2

- All parts required to repair the Product.
- Maintenance items that are contaminated or damaged by a warrantable failure.
- Travel time up to 6.5 hours and mileage cost up to 250 miles for related warranty repairs.

Years 3-5

- Major components only†.

†Major components for power train included: cylinder block, cylinder heads, crankshaft, camshaft, balance shafts, pistons, rings, valves, valve lifters, manifolds, and major castings. Major components for generator included: main stator, main rotor, excitation stator, and excitation rotor.

Owner Responsibilities:

The owner will be responsible for the following:

- Providing evidence of the date of sale to the first retail purchaser.
- Notifying Cummins Power Generation® distributor or dealer within 30 days of the discovery of failure.
- Installing, operating, commissioning and maintaining the Product in accordance with Cummins Power Generation®'s published policies and guidelines.
- Providing sufficient access to and reasonable ability to remove the Product from the installation in the event of a warrantable failure.

In addition, the owner will be responsible for:

- Incremental costs and expenses associated with Product removal and reinstallation resulting from non-standard installations.
- Costs associated with rental of generator sets used to replace the Product being repaired.
- Costs associated with labor overtime and premium shipping requested by the owner.
- All downtime expenses, fines, all applicable taxes, and other losses resulting from a warrantable failure.

Limitations:

This limited warranty does not cover Product failures resulting from:

- Inappropriate use relative to designated power rating.
- Inappropriate use relative to application guidelines.
- Failures due to normal wear, corrosion, varnished fuel system parts, lack of reasonable and necessary maintenance, unauthorized modifications and/or repair, and use of add-on or modified parts.
- Improper and/or unauthorized installation.
- Owner's living and travel expenses.
- Telephone or other communication expenses.
- Owner's or operator's negligence, accidents or misuse.

Limitations Continued:

- Noncompliance with any Cummins Power Generation® published guideline or policy.
- Use of improper or contaminated fuels, coolants or lubricants.
- Improper storage before and after commissioning.
- Owner's delay in making Product available after notification of potential Product problem.
- Replacement parts and accessories not authorized by Cummins Power Generation®.
- Owner or operator abuse or neglect such as: operation without adequate coolant or lubricants; overfueling; lack of maintenance to lubricating, cooling or air intake systems; late servicing and maintenance; improper storage, starting, warm-up, run-in or shutdown practices, or for progressive damage resulting from a defective shutdown or warning device.
- Damage to parts, fixtures, housings, attachments and accessory items that are not part of the generator set.

This limited warranty does not cover costs resulting from:

- Difficulty in gaining access to the Product.
- Damage to customer property.
- Repair of cosmetic damage to enclosures.

Please contact your local Cummins Power Generation® Distributor for clarification concerning these limitations.

CUMMINS POWER GENERATION® RIGHT TO FAILED COMPONENTS:

Failed components claimed under warranty remain the property of Cummins Power Generation®. Cummins Power Generation® has the right to reclaim any failed component that has been replaced under warranty.

Extended Warranty:

Cummins Power Generation® offers several levels of Extended Warranty Coverage. Please contact your local Cummins Power Generation® Distributor for details.

www.cumminsonan.com

THIS IS THE SOLE WARRANTY MADE BY CUMMINS POWER GENERATION® IN REGARD TO THE PRODUCT. CUMMINS POWER GENERATION® MAKES NO OTHER WARRANTIES, EXPRESS OR IMPLIED, OR OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE.

IN NO EVENT IS CUMMINS POWER GENERATION® LIABLE FOR INCIDENTAL OR CONSEQUENTIAL DAMAGES.

This limited warranty shall be enforced to the maximum extent permitted by applicable law. This limited warranty gives the owner specific rights that may vary from state to state or from jurisdiction to jurisdiction.

Rugged Mobile Power (RMP) 5-60Kw Units

Limited Warranty

RMP

This limited warranty applies to all Cummins Power Generation® branded RMP generating sets and winterizing kits sold with generating sets (hereinafter referred to as "Product").

This warranty covers any failures of the Product, under normal use and service, which result from a defect in material or factory workmanship.

Warranty Period:

The warranty start date is the date of Product shipment. Coverage duration is 36 months or 1800 hours, whichever occurs first.

Cummins Power Generation® Responsibilities:

In the event of a failure of the Product during the warranty period due to defects in material or workmanship, Cummins Power Generation® will only be responsible for the following costs:

- All parts required to repair the Product.
- Maintenance items that are contaminated or damaged by a warrantable failure.

Owner Responsibilities:

The owner will be responsible for the following:

- Notifying Cummins Power Generation® distributor within 30 days of the discovery of failure.
- Installing, operating, commissioning and maintaining the Product in accordance with Cummins Power Generation®'s published policies and guidelines.

Limitations:

This limited warranty does not cover Product failures resulting from:

- Inappropriate use relative to designated power rating.
- Inappropriate use relative to application guidelines.
- Normal wear and tear.
- Improper and/or unauthorized installation.
- Negligence, accidents or misuse.
- Lack of maintenance or unauthorized repair.
- Use of improper or contaminated fuels, coolants or lubricants.

- Improper storage before and after commissioning.
- Replacement parts and accessories not authorized by Cummins Power Generation®.
- Use of Battle Short Mode.
- Owner or operator abuse or neglect such as: operation without adequate coolant or lubricants; overfueling; overspeeding; lack of maintenance to lubricating, cooling or air intake systems; late servicing and maintenance; improper storage, starting, warm-up, run-in or shutdown practices, or for progressive damage resulting from a defective shutdown or warning device.
- Damage to parts, fixtures, housings, attachments and accessory items that are not part of the generating set.

Please contact Cummins Power Generation® at cpg.warranty@cummins.com for clarification concerning these limitations.

CUMMINS POWER GENERATION® RIGHT TO FAILED COMPONENTS:

Failed components claimed under warranty remain the property of Cummins Power Generation®. Cummins Power Generation® has the right to reclaim any failed component that has been replaced under warranty.

Generator Sets

C11 D5T, C17 D5T, C22 D5T, C28 D5T, C38 D5T

Limited Warranty

Commercial Generating Set

This limited Increased Base warranty applies to all Cummins Power Generation® branded commercial Low Range generating sets C11 D5T to C38 D5T and associated accessories (hereinafter referred to as "Product").

This warranty covers any failures of the Product, under normal use and service, which result from a defect in material or factory workmanship.

Warranty Period:

The warranty start date is the date of initial start up, first rental, demonstration or 18 months after factory ship date, whichever is sooner. See table for details.

Prime Power (PRP) is defined as being the maximum power which a generating set is capable of delivering continuously whilst supplying a variable electrical load when operated for an unlimited number of hours per year. The permissible average power output over 24 hours of operation shall not exceed 70% of the PRP. For applications requiring permissible average output higher than stated, a COP rating should be used.

Limited Warranty

Parts and Accessories

This limited warranty applies to all Cummins Power Generation® genuine parts and accessories (hereinafter referred to as "Product") purchased after October 1, 2009.

This warranty covers any failures of Product, under normal use and service, which result from a defect in material or factory workmanship.

Warranty Period:

The warranty start date is the date of purchase.

Parts Coverage Duration:

Purchased parts are warranted according to listed table. Labor and travel expenses are covered if they were paid for with the original parts purchase. Any parts repaired or replaced during the warranty period assume the remainder of that warranty period.

Warranty Coverage Duration

Part Name	Duration
Engine Inverter	One (1) Year
All other parts	Ninety (90) Days

Accessory Coverage Duration:

Purchased accessories are warranted for ninety (90) days. Labor and travel expenses are covered if they were paid for with the original accessory purchase. Any accessory repaired or replaced during the warranty period assumes the remainder of that warranty period.

Cummins Power Generation® Responsibilities:

In the event of a failure of the Product during the warranty period due to defects in material or workmanship, Cummins Power Generation® will only be responsible for the following costs:

- Replacement Product
- Travel and labor if they were included in the original Product purchase

Owner Responsibilities:

The owner of the Product will be responsible for the following:

- Notifying Cummins Power Generation® distributor or dealer within 30 days of the discovery of failure.
- Installing, operating, and maintaining the Product in accordance with Cummins Power Generation®'s published policies and guidelines.
- Providing evidence for date of purchase.
- Providing sufficient access to and reasonable ability to remove the Product from the installation in the event of a warrantable failure.

In addition, the owner of the Product will be responsible for:

- Incremental costs and expenses associated with Product removal and reinstallation resulting from non-standard installations.
- Costs associated with rental of generating sets used to replace the Product being repaired.
- Costs associated with labor overtime and premium shipping requested by the owner.
- All downtime expenses, fines, all applicable taxes, and other losses resulting from a warrantable failure.

Limitations and Exclusions:

This limited warranty does not cover Product failures resulting from:

- Inappropriate use relative to application guidelines.
- Normal wear and tear.
- Improper and/or unauthorized installation.
- Negligence, accidents or misuse.
- Lack of maintenance or unauthorized repair.
- Noncompliance with any Cummins Power Generation® published guideline or policy.
- Use of improper or contaminated fuels, coolants or lubricants.
- Improper storage.
- Improper user setup or configuration.

- Owner's delay in making Product available after notification of potential Product problem.
- Use of any non-genuine Cummins Power Generation® replacement parts and accessories.
- Replacement parts and accessories used on any equipment other than Cummins Power Generation®.
- Use of Battle Short Mode.
- Owner or operator abuse or neglect such as: operation without adequate coolant or lubricants; overfueling; overspeeding; lack of maintenance to lubricating, cooling or air intake systems; late servicing and maintenance; improper storage, starting, warm-up, run-in or shutdown practices, or for progressive damage resulting from a defective shutdown or warning device.
- Damage to parts, fixtures, housings, attachments and accessory items that are not part of the generating set.

This limited warranty does not cover costs resulting from:

- Difficulty in gaining access to the Product.
- Repair of cosmetic damage to enclosures.

- Replacement parts and accessories used on any equipment other than Cummins Power Generation®.
- Use of Battle Short Mode.
- Owner or operator abuse or neglect such as: operation without adequate coolant or lubricants; overfueling; overspeeding; lack of

maintenance to lubricating, cooling or air intake systems; late servicing and maintenance; improper storage, starting, warm-up, run-in or shutdown practices, or for progressive damage resulting from a defective shutdown or warning device.

- Damage to parts, fixtures, housings, attachments and accessory items that are not part of the generating set.

This limited warranty does not cover costs resulting from:

- Difficulty in gaining access to the Product.
- Repair of cosmetic damage to enclosures.

THE WARRANTY SET FORTH HEREIN IS THE SOLE WARRANTY MADE BY CUMMINS POWER GENERATION® IN REGARD TO THE PRODUCT. CUMMINS POWER GENERATION® MAKES NO OTHER WARRANTY, EXPRESS OR IMPLIED, OR OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE.

IN NO EVENT IS CUMMINS POWER GENERATION® LIABLE FOR INCIDENTAL OR CONSEQUENTIAL DAMAGES.

CUMMINS POWER GENERATION® RIGHT TO FAILED COMPONENTS:

Failed Product replaced under this warranty shall become the property of Cummins Power Generation®. Cummins Power Generation® has the right to reclaim any failed component that has been replaced under warranty.

Extended Warranty:

Cummins Power Generation® offers several levels of Extended Warranty Coverage separate from this limited warranty. Please contact your local Cummins Power Generation® Distributor for details.

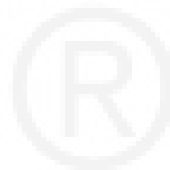

www.power.cummins.com

This limited warranty shall be enforced to the maximum extent permitted by applicable law. This limited warranty gives the owner specific rights that may vary from state to state or from jurisdiction to jurisdiction.

MANUFACTURER'S LIMITED WARRANTY ONAN® STANDARD/PRO SERIES™ PORTABLE GENERATORS

COVERAGE PERIOD

Provided such goods are operated and maintained in accordance with Onan's written instructions, Onan warrants that STANDARD/PRO SERIES™ portable generators manufactured or supplied by it will be free from defects in workmanship and material for a period of one (1) year from the date of purchase. Standard series purchased after July 1, 1995 are warranted for two (2) years in consumer applications and one (1) year in commercial applications. PRO Series generators purchased after July 1, 1995 are warranted for a period of three (3) years. This warranty is extended to all subsequent owners of the generator set during the coverage period.

Any replacement part that is equivalent with respect to the functional performance of the original part may be used in the performance of any maintenance or repairs. If any non-genuine Onan part causes or substantially contributes to a failure, that failure may not be covered by warranty. Distributors and dealers authorized to perform warranty service will use only genuine Onan parts in that work, and such parts will be provided at no charge to the owner.

Repair or replacement parts are warranted for ninety (90) days from date of purchase, excluding labor and travel expenses. Any part repaired or replaced during the warranty period assumes the remainder of that warranty period.

ONAN'S RESPONSIBILITIES

Onan's obligation under the terms of this warranty is limited to the repair or replacement, at its option, of the generator set or parts of the generator set that do not conform to this warranty and parts damaged by non-conforming parts.

OWNER'S RESPONSIBILITIES

The owner is obligated to operate and maintain the generator set in accordance with the recommendations published by Onan in the Operator's Manual. The owner is responsible for the costs associated with such maintenance and any adjustments which may be required.

All claims must be brought to the attention of Onan or an authorized Distributor or its designated service representative within a reasonable time, preferably within 30 days after discovery that the generator set fails to meet this warranty.

The owner is responsible for payment of any of the following expenses that might be incurred as a result of a failure under the terms of this warranty:

1. Rental equipment used to replace the equipment being repaired
2. Telephone or other communication expenses
3. Living and travel expenses of the person making the repair
4. The premium costs for overtime labor requested by the owner
5. The cost of air freight or other extraordinary expenses for shipment of parts over and above premium surface transportation

LIMITATIONS

Onan is not responsible for the repair of the generator set that is required because of normal wear, accident, misuse, abuse, improper installation, lack of maintenance, unauthorized modifications, the use of add-on or modified parts, improper storage, negligence, improper or contaminated fuel.

NORMAL WEAR

This warranty will not cover repair where normal use has exhausted the life of a part or generator set. Generator sets, like all mechanical devices, need periodic parts replacement and service to perform well. It should be remembered that the service life of any generator set is dependent on the care it receives and the conditions under which it has to operate. Some applications are very dusty or dirty, which can cause excessive wear. Such wear, when caused by dirt, dust or other abrasive material, which has entered the generator set because of improper maintenance, is not covered by Warranty.

THERE IS NO OTHER EXPRESS WARRANTY.

IMPLIED WARRANTIES, INCLUDING MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, ARE LIMITED TO PERIODS OF WARRANTY SET FORTH ABOVE. TO THE EXTENT PERMITTED BY LAW, ANY AND ALL IMPLIED WARRANTIES ARE EXCLUDED. **NOTE:** Some states and provinces do not allow limitations on how long an implied warranty lasts, so the above limitations may not apply to you.

IN NO EVENT IS ONAN LIABLE FOR INCIDENTAL OR CONSEQUENTIAL DAMAGES. **NOTE:** Some states or provinces do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation or exclusion may not apply to you.

This warranty gives you specific legal rights, and you may also have other rights which vary from state to state or province.

No person is authorized to give any other warranties or to assume any other liabilities on Onan's behalf, unless made or assumed in writing by an officer of Onan, and no person is authorized to give any warranties or assume any other liability on behalf of seller unless made or assumed in writing by seller.

EXTENDED COVERAGE (PRO SERIES ONLY)

Extended warranty coverage may be purchased on the PRO Series within the first year of the warranty start date for a nominal fee. There are no deductibles applied to this program. The extended warranty is available only in the U.S. and Canada. See your Cummins/Onan Distributor or your point of purchase dealer for details on five (5) year warranty coverage.

If you have any questions regarding your warranty rights and responsibilities, you should contact your Cummins/Onan distributor by calling 1-800-888-6626.

APPENDIX H

MANUFACTURER'S LIMITED WARRANTY ONAN PERFORMER AND ELITE SERIES ENGINES

Coverage Period

Provided such goods are operated and maintained in accordance with Onan's written instructions, Onan warrants the PERFORMER and ELITE SERIES engines will be free from defects in material and workmanship for a period of two (2) years from the date of delivery to the first retail purchaser. Performer and Elite Series engines purchased after July 1, 1995 are warranted for a period of three (3) years. In the case of engines used for rental or demonstration purposes, this warranty coverage period begins on the date the engine is first used for such rental or demonstration purposes. This warranty is extended to all subsequent owners of the engine during the coverage period.

Emission related components such as the carburetor, ignition system, spark plugs, intake and exhaust manifolds, mufflers, catalytic converters, fuel filters, gaseous fuel regulators, and related belts, hoses and connectors are warranted for a period of two (2) years.

Any replacement part that is equivalent with respect to the functional performance of the original part may be used in the performance of any maintenance or repairs. If any non-genuine Onan part causes or substantially contributes to a failure, that failure may not be covered by warranty. Distributors and dealers authorized to perform warranty service will use only genuine Onan parts in that work, and such parts will be provided at no charge to the owner.

Repair or replacement parts are warranted for ninety (90) days from date of purchase, excluding labor and travel expenses. Any part repaired or replaced during the warranty period assumes the remainder of that warranty period.

Onan's Responsibilities

Onan's obligation under the terms of this warranty is limited to the repair or replacement, at its option, of the engine or parts of the engine that do not conform to this warranty and engine parts damaged by nonconforming parts.

Onan will pay for the parts and labor, including diagnostic labor, on emissions related failures needed to repair the engine. When necessary, Onan will also pay reasonable labor expenses associated with the removal and reinstallation of the engine into the customer's equipment up to the maximum time of two (2) hours if such work is done by an Onan Engine Distributor or other service representative designated by Onan.

The cost of maintenance items such as spark plugs, oil filter, fuel filter, air filter, belts, and hoses will be paid for the period of time up to the first scheduled replacement point.

Owner's Responsibilities

The owner is obligated to operate and maintain the engine in accordance with the recommendations published by Onan in the Operator's Manual for the engine. The owner is responsible for the costs associated with such maintenance and any adjustments which may be required.

All claims must be brought to the attention of Onan or an authorized Distributor or its designated service representative within a reasonable time, preferably within 30 days after discovery that the engine fails to meet this warranty.

The owner is responsible for payment of any of the following expenses that might be incurred as a result of a failure under the terms of this warranty:

1. Rental equipment used to replace the equipment being repaired
2. Telephone or other communication expenses
3. Living and travel expenses of the person making the repair
4. The premium costs for overtime labor requested by the owner
5. The cost of air freight or other extraordinary expenses for shipment of parts over and above premium surface transportation

Limitations

Onan is not responsible for the repair of engines that is required because of normal wear, accident, misuse, abuse, improper storage, negligence, improper or contaminated fuel.

Normal Wear

This warranty will not cover repair where normal use has exhausted the life of a part or engine. Engines, like all mechanical devices, need periodic parts replacement and service to perform well. It should be remembered that the service life of any engine is dependent on the care it receives and the conditions under which it has to operate. Some applications are very dusty or dirty, which can cause excessive wear. Such wear, when caused by dirt, dust or other abrasive material which has entered the engine because of improper maintenance, is not covered by Warranty.

THERE IS NO OTHER EXPRESS WARRANTY.

IMPLIED WARRANTIES, INCLUDING MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, ARE LIMITED TO PERIODS OF WARRANTY SET FORTH ABOVE. TO THE EXTENT PERMITTED BY LAW, ANY AND ALL IMPLIED WARRANTIES ARE EXCLUDED.

NOTE: Some states and provinces do not allow limitations on how long an implied warranty lasts, so the above limitations may not apply to you.

IN NO EVENT IS ONAN LIABLE FOR INCIDENTAL OR CONSEQUENTIAL DAMAGES.

NOTE: Some states or provinces do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation or exclusion may not apply to you.

This warranty gives you specific legal rights, and you may also have other rights which vary from state to state or province.

No person is authorized to give any other warranties or to assume any other liabilities on Onan's behalf, unless made or assumed in writing by an officer of Onan, and no person is authorized to give any warranties or assume any other liability on behalf of seller unless made or assumed in writing by seller.

Extended Coverage

Extended warranty coverage may be purchased within the first year of the warranty start date for a nominal fee. There are no deductibles applied to this program. The extended warranty is available only in the U.S. and Canada. See your Cummins/Onan distributor or your point of purchase dealer for details on five (5) year warranty coverage.

If you have any questions regarding your warranty rights and responsibilities, you should contact your Cummins/Onan distributor by calling 1-800-888-6626.

AB-2004 Onan® Home Power Series™ Portable Generators: Manufacturer's Limited Warranty

Basic Coverage

Coverage Period

Provided such goods are operated and maintained in accordance with Onan's written instructions, Onan warrants that the Home Power Series™ portable generator will be repaired or replaced at our option if there is any defect in workmanship and/or material. Onan warrants consumer product applications for a period of (2) years from the date of purchase. Commercial and rental product applications are covered for a period of (1) year from the date of purchase. This warranty is extended to all subsequent owners of the generator set during the coverage period.

Any replacement part that is equivalent with respect to the functional performance of the original part may be used in the performance of any maintenance or repairs. If any non-genuine Onan part causes or substantially contributes to a failure, that failure may not be covered by warranty. Distributors and dealers authorized to perform warranty service will use only genuine Onan parts in that work, and such parts will be provided at no charge to the owner.

Repair or replacement parts are warranted for ninety (90) days from date of purchase, excluding labor and travel expenses. Any part repaired or replaced during the warranty period assumes the remainder of that warranty period.

Coverage Description

Onan is not responsible for the repair of the generator set that is required because of normal wear, accident, misuse, abuse, improper installation, lack of maintenance, unauthorized modifications, the use of add-on or modified parts, improper storage, negligence, improper or contaminated fuel.

Normal Wear

This warranty will not cover repair where normal use has exhausted the life of a part or generator set. Generator sets, like all mechanical devices, need periodic parts replacement and service to perform well. It should be remembered that the service life of any generator set is dependent on the care it receives and the conditions under which it has to operate. Some applications are very dusty or dirty, which can cause excessive wear. Such wear, when caused by dirt, dust or

other abrasive material, which has entered the generator set because of improper maintenance, is not covered by Warranty.

Miscellaneous Damages

In no event is Onan liable for incidental or consequential damages. Some states or provinces do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation or exclusion may not apply to you.

Other Warranties

There is no other express warranty. Implied warranties, including merchantability and fitness for a particular purpose, are limited to periods of warranty set forth above. To the extent permitted by law, any and all implied warranties are excluded. Some states and provinces do not allow limitations on how long an implied warranty lasts, so the above limitations may not apply to you.

No person is authorized to give any other warranties or to assume any other liabilities on Onan's behalf, unless made or assumed in writing by an officer of Onan. No person is authorized to give any warranties or assume any other liability on behalf of seller unless made or assumed in writing by the seller.

This warranty gives you specific legal rights, and you may also have other rights that vary from state to state or province.

Questions

If you have any questions regarding your warranty coverage and responsibilities, you should contact your Cummins/Onan distributor by calling **1-800-888-6626**.

Onan's Responsibilities

Onan's obligation under the terms of this warranty is limited to the repair or replacement, at its option, of the generator set or parts of the generator set that do not conform to this warranty and parts damaged by nonconforming parts.

Owner's Responsibilities

The owner is obligated to operate and maintain the generator set in accordance with the recommendations published by Onan in the Operator's Manual. The owner is responsible for the costs associated with such maintenance and any adjustments that may be required.

All claims must be brought to the attention of Onan or an authorized Distributor or its designated service representative within a reasonable time, preferably within 30 days after discovery that the generator set fails to meet this warranty.

The owner is responsible for payment of any of the following expenses that might be incurred as a result of a failure under the terms of this warranty:

1. Rental equipment used to replace the equipment being repaired
2. Telephone or other communication expenses
3. Living and travel expenses of the person making the repair
4. The premium costs for overtime labor requested by the owner
5. The cost of air freight or other extraordinary expenses for shipment of parts over and above premium surface transportation

Cummins Onan Portable Generators: Manufacturer's Limited Warranty

Basic Coverage

Provided such goods are operated and maintained in accordance with Cummins Power Generation's written instructions, CPG warrants that the Home Power Series portable generator will be repaired or replaced at our option if there is any defect in workmanship and/or material. CPG warrants consumer product applications for a period of (2) years from date of delivery to the first retail purchaser. Commercial and rental product applications are covered for a period of (1) year from date of delivery to the first retail purchaser. This warranty is extended to all subsequent owners of the generator set during the coverage period.

Any replacement part that is equivalent with respect to the functional performance of the original part may be used in the performance of any maintenance or repairs. If any non-genuine CPG part causes or substantially contributes to a failure, that failure may not be covered by warranty. Distributors and dealers authorized to perform warranty service will use only genuine CPG parts in that work, and such parts will be provided at no charge to the owner.

Repair or replacement parts are warranted for ninety (90) days from date of purchase, excluding labor and travel expenses. Any part repaired or replaced during the warranty period assumes the remainder of that warranty period.

Coverage Description

CPG is not responsible for the repair of the generator set that is required because of normal wear, accident, misuse, abuse, improper installation, lack of maintenance, unauthorized modifications, the use of add-on or modified parts, improper storage, negligence, improper or contaminated fuel.

Normal Wear

This warranty will not cover repair where normal use has exhausted the life of a part or generator set. Generator sets, like all mechanical devices, need periodic parts replacement and service to perform well. It should be remembered that the service life of any generator set is dependent on the care it receives and the conditions under which it has to operate. Some applications are very dusty or dirty, which can cause excessive wear. Such wear, when caused by dirt, dust or other abrasive material, which has entered the generator set because of improper maintenance, is not covered by Warranty.

Miscellaneous Damages

In no event is Cummins Onan liable for incidental or consequential damages. Some states or provinces do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation or exclusion may not apply to you.

Other Warranties

There is no other express warranty. Implied warranties, including merchantability and fitness for a particular purpose, are limited to periods of warranty set forth above. To the extent permitted by law, any and all implied warranties are excluded.

Some states and provinces do not allow limitations on how long an implied warranty lasts, so the above limitations may not apply to you.

No person is authorized to give any other warranties or to assume any other liabilities on CPG's behalf, unless made or assumed in writing by an officer of CPG. No person is authorized to give any warranties or assume any other liability on behalf of seller unless made or assumed in writing by the seller.

This warranty gives you specific legal rights, and you may also have other rights that vary from state to state or province.

Cummins Onan's Responsibilities

CPG's obligation under the terms of this warranty is limited to the repair or replacement, at its option, of the generator set or parts of the generator set that do not conform to this warranty and parts damaged by nonconforming parts.

Owner's Responsibilities

The owner is obligated to operate and maintain the generator set in accordance with the recommendations published by Cummins Onan in the Operator's Manual. The owner is responsible for the costs associated with such maintenance and any adjustments that may be required.

All claims must be brought to the attention of Cummins Onan or an authorized Distributor or its designated service representative within 30 days after discovery that the generator set fails to meet this warranty.

The owner is responsible for payment of any of the following expenses that might be incurred as a result of a failure under the terms of this warranty:

1. Rental equipment used to replace the equipment being repaired
2. Telephone or other communication expenses
3. Living and travel expenses of the person making the repair
4. The premium costs for overtime labor requested by the owner
5. The cost of air freight or other extraordinary expenses for shipment of parts over and above premium surface transportation

Questions

If you have any questions regarding your warranty coverage and responsibilities, you should contact your Cummins Onan distributor by calling 1-800-888-6626.

Limited Prime Power 2 Year or 1,500 hour Comprehensive Extended Warranty – L053

Commercial Generating Set

When purchased, this limited extended warranty applies to Cummins Power Generation® branded commercial generating sets and associated accessories (hereinafter referred to as "Product").

This warranty covers any failures of the Product, under normal use and service, which result from a defect in material or factory workmanship.

Warranty Period:

The warranty start date is the date of initial start up, first rental, demonstration or 18 months after factory ship date, whichever is sooner. The coverage duration is 2 years from warranty start date or 1,500 hours or whichever occurs first.

Prime Power (PRP) is defined as being the maximum power which a generating set is capable of delivering continuously whilst supplying a variable electrical load. The permissible average power output over 24 hours of operation shall not exceed 70% of the PRP. For applications requiring permissible average output higher than stated, a COP rating should be used.

Cummins Power Generation® Responsibilities:

In the event of a failure of the Product during the extended warranty period due to defects in material or workmanship, Cummins Power Generation® will only be responsible for the following costs:

- All parts and labor required to repair the Product.
- Reasonable travel expenses to and from the Product site location.
- Maintenance items that are contaminated or damaged by a warrantable failure.

Owner Responsibilities:

The owner will be responsible for the following:

- Notifying Cummins Power Generation® distributor or dealer within 30 days of the discovery of failure.
- Installing, operating, commissioning and maintaining the Product in accordance with Cummins Power Generation®'s published policies and guidelines.
- Providing evidence for date of commissioning.
- Providing sufficient access to and reasonable ability to remove the Product from the installation in the event of a warrantable failure.

In addition, the owner will be responsible for:

- Incremental costs and expenses associated with Product removal and reinstallation resulting from non-standard installations.
- Costs associated with rental of generating sets used to replace the Product being repaired.
- Costs associated with labor overtime and premium shipping requested by the owner.
- All downtime expenses, fines, all applicable taxes, and other losses resulting from a warrantable failure.

Limitations:

This limited extended warranty does not cover Product failures resulting from:

- Inappropriate use relative to designated power rating.
- Inappropriate use relative to application guidelines.
- Normal wear and tear.
- Improper and/or unauthorized installation.
- Owner's or operator's negligence, accidents or misuse.
- Lack of maintenance or unauthorized repair.
- Noncompliance with any Cummins Power Generation® published guideline or policy.
- Use of improper or contaminated fuels, coolants or lubricants.
- Improper storage before and after commissioning.
- Owner's delay in making Product available after notification of potential Product problem.

- Use of steel enclosures within 60 miles of the coast of salt water when aluminum or an alternate non-corrosive material enclosure option is available.
- Replacement parts and accessories not authorized by Cummins Power Generation®.
- Use of Battle Short Mode.
- Owner or operator abuse or neglect such as: operation without adequate coolant or lubricants; overfueling; overspeeding; lack of maintenance to lubricating, cooling or air intake systems; late servicing and maintenance; improper storage, starting, warm-up, run-in or shutdown practices, or for progressive damage resulting from a defective shutdown or warning device.
- Damage to parts, fixtures, housings, attachments and accessory items that are not part of the generating set.

This limited extended warranty does not cover costs resulting from:

- Difficulty in gaining access to the Product.
- Repair of cosmetic damage to enclosures.

Items not covered by this limited extended warranty:

- Batteries
- Enclosures
- Coolant heating elements
- Maintenance items

Aftertreatment component failures

www.cumminspower.com

CUMMINS POWER GENERATION® RIGHT TO FAILED COMPONENTS:

Failed components claimed under warranty remain the property of Cummins Power Generation®. Cummins Power Generation® has the right to reclaim any failed component that has been replaced under warranty.

THE WARRANTIES SET FORTH HEREIN ARE THE SOLE WARRANTIES MADE BY CUMMINS POWER GENERATION ® IN REGARD TO THE PRODUCT. CUMMINS POWER GENERATION® MAKES NO OTHER WARRANTIES, EXPRESS OR IMPLIED, OR OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE.

IN NO EVENT IS CUMMINS POWER GENERATION® LIABLE FOR INCIDENTAL OR CONSEQUENTIAL DAMAGES.

This limited extended warranty shall be enforced to the maximum extent permitted by applicable law. This limited extended warranty gives the owner specific rights that may vary from state to state or from jurisdiction to jurisdiction.

Limited Prime Power 5 Year or 4,000 hour Comprehensive Extended Warranty – L055

Commercial Generating Set

When purchased, this limited extended warranty applies to Cummins Power Generation® branded commercial generating sets and associated accessories (hereinafter referred to as "Product").

This warranty covers any failures of the Product, under normal use and service, which result from a defect in material or factory workmanship.

Warranty Period:

The warranty start date is the date of initial start up, first rental, demonstration or 18 months after factory ship date, whichever is sooner. The coverage duration is 5 years from warranty start date or 4,000 hours or whichever occurs first.

Prime Power (PRP) is defined as being the maximum power which a generating set is capable of delivering continuously whilst supplying a variable electrical load. The permissible average power output over 24 hours of operation shall not exceed 70% of the PRP. For applications requiring permissible average output higher than stated, a COP rating should be used.

Cummins Power Generation® Responsibilities:

In the event of a failure of the Product during the extended warranty period due to defects in material or workmanship, Cummins Power Generation® will only be responsible for the following costs:

- All parts and labor required to repair the Product.
- Reasonable travel expenses to and from the Product site location.
- Maintenance items that are contaminated or damaged by a warrantable failure.

Owner Responsibilities:

The owner will be responsible for the following:

- Notifying Cummins Power Generation® distributor or dealer within 30 days of the discovery of failure.
- Installing, operating, commissioning and maintaining the Product in accordance with Cummins Power Generation®'s published policies and guidelines.
- Providing evidence for date of commissioning.
- Providing sufficient access to and reasonable ability to remove the Product from the installation in the event of a warrantable failure.

In addition, the owner will be responsible for:

- Incremental costs and expenses associated with Product removal and reinstallation resulting from non-standard installations.
- Costs associated with rental of generating sets used to replace the Product being repaired.
- Costs associated with labor overtime and premium shipping requested by the owner.
- All downtime expenses, fines, all applicable taxes, and other losses resulting from a warrantable failure.

Limitations:

This limited extended warranty does not cover Product failures resulting from:

- Inappropriate use relative to designated power rating.
- Inappropriate use relative to application guidelines.
- Normal wear and tear.
- Improper and/or unauthorized installation.
- Owner's or operator's negligence, accidents or misuse.
- Lack of maintenance or unauthorized repair.
- Noncompliance with any Cummins Power Generation® published guideline or policy.
- Use of improper or contaminated fuels, coolants or lubricants.
- Improper storage before and after commissioning.
- Owner's delay in making Product available after notification of potential Product problem.

- Use of steel enclosures within 60 miles of the coast of salt water when aluminum or an alternate non-corrosive material enclosure option is available.
- Replacement parts and accessories not authorized by Cummins Power Generation®.
- Use of Battle Short Mode.
- Owner or operator abuse or neglect such as: operation without adequate coolant or lubricants; overfueling; overspeeding; lack of maintenance to lubricating, cooling or air intake systems; late servicing and maintenance; improper storage, starting, warm-up, run-in or shutdown practices, or for progressive damage resulting from a defective shutdown or warning device.
- Damage to parts, fixtures, housings, attachments and accessory items that are not part of the generating set.

This limited extended warranty does not cover costs resulting from:

- Difficulty in gaining access to the Product.
- Repair of cosmetic damage to enclosures.

Items not covered by this limited extended warranty:

- Batteries
- Enclosures
- Coolant heating elements
- Maintenance items

Aftertreatment component failures

Limited Prime Power 5 Year or 4,000 hour Basic Extended Warranty – L054

Commercial Generating Set

When purchased, this limited extended warranty applies to Cummins Power Generation® branded commercial generating sets and associated accessories (hereinafter referred to as "Product").

This warranty covers any failures of the Product, under normal use and service, which result from a defect in material or factory workmanship.

Warranty Period:

The warranty start date is the date of initial start up, first rental, demonstration or 18 months after factory ship date, whichever is sooner. The coverage duration is 5 years from warranty start date or 4,000 hours or whichever occurs first.

Prime Power (PRP) is defined as being the maximum power which a generating set is capable of delivering continuously whilst supplying a variable electrical load. The permissible average power output over 24 hours of operation shall not exceed 70% of the PRP. For applications requiring permissible average output higher than stated, a COP rating should be used.

Cummins Power Generation® Responsibilities:

In the event of a failure of the Product during the extended warranty period due to defects in material or workmanship, Cummins Power Generation® will only be responsible for the following costs:

- All parts required to repair the Product.

Owner Responsibilities:

The owner will be responsible for the following:

- Notifying Cummins Power Generation® distributor or dealer within 30 days of the discovery of failure.
- Installing, operating, commissioning and maintaining the Product in accordance with Cummins Power Generation®'s published policies and guidelines.
- Providing evidence for date of commissioning.
- Providing sufficient access to and reasonable ability to remove the Product from the installation in the event of a warrantable failure.

In addition, the owner will be responsible for:

- Incremental costs and expenses associated with Product removal and reinstallation resulting from non-standard installations.
- Costs associated with rental of generating sets used to replace the Product being repaired.
- Costs associated with labor overtime and premium shipping requested by the owner.
- Labor and travel after base warranty period expires.
- All downtime expenses, fines, all applicable taxes, and other losses resulting from a warrantable failure.

Limitations:

This limited extended warranty does not cover Product failures resulting from:

- Inappropriate use relative to designated power rating.
- Inappropriate use relative to application guidelines.
- Normal wear and tear.
- Improper and/or unauthorized installation.
- Owner's or operator's negligence, accidents or misuse.
- Lack of maintenance or unauthorized repair.
- Noncompliance with any Cummins Power Generation® published guideline or policy.
- Use of improper or contaminated fuels, coolants or lubricants.
- Improper storage before and after commissioning.

- Owner's delay in making Product available after notification of potential Product problem.
- Use of steel enclosures within 60 miles of the coast of salt water when aluminum or an alternate non-corrosive material enclosure option is available.
- Replacement parts and accessories not authorized by Cummins Power Generation®.
- Use of Battle Short Mode.
- Owner or operator abuse or neglect such as: operation without adequate coolant or lubricants; overfueling; overspeeding; lack of maintenance to lubricating, cooling or air intake systems; late servicing and maintenance; improper storage, starting, warm-up, run-in or shutdown practices, or for progressive damage resulting from a defective shutdown or warning device.
- Damage to parts, fixtures, housings, attachments and accessory items that are not part of the generating set.
